ID-TECH
Kick-start your future at the world's #1 tech camp for kids and teens, with over 150 prestigious campus locations nationwide. Whether you're an aspiring coder, app developer, web designer, or robotics engineer, unleash your inner "maker" and do something BIG this summer. Day & overnight STEM programs available. We build inclusive, fun learning environments where students are empowered with the skills they need to re-imagine our tech-driven world. And they plant a tree for every student that registers! https://www.idtech.com/

DIGITAL MEDIA ACADEMY
Their mission is to be a learning community of diversity and excellence through memorable and innovative educational experiences led by the highest-quality instructors and by building skills and confidence to empower life-long learners to follow their dreams and make a lasting impact. Founded in 2002 at Stanford University, DMA is an education company whose core business is developing and running technology camps and courses for kids, teens and adults at prestigious universities across the U.S. and Canada. In addition to its summer programs, DMA offers year-round learning via DMA Online. DMA instructors and curriculum developers include industry professionals and outstanding technology educators, who have a driving passion for inspiring, teaching & mentoring. Visit: https://www.digitalmediaacademy.org/ or call 866-656-3342.

ST. THOMAS AQUINAS COLLEGE – SUMMER STEAM CAMPS
All camps are designed for middle school students. With support from Orange and Rockland, STAC offers four summer STEAM camps held on the Sparkill campus and led by college faculty. Past programs have included: Mathematics and Art; Forensic Science; Emerging Technologies: Robotics, Drones and Virtual Reality; Environmental Science. Programs are open to students at all ability levels. For more information visit https://www.stac.edu/academics/steam-camps or email: sreynold@stac.edu. 845-398-4000.

DWIGHT ENGLEWOOD SUMMER ENRICHMENT PROGRAM
Enrich your education this summer! The traditional structure of schools is based on a model in which adults decide what students should learn. The hope is that they take this education and apply it to their passion when they finish with formal schooling. What if we turned it around and helped students find their passion BEFORE they finished their school careers? Our summer enrichment program offers computer/tech programs and much, much more. https://www.d-e.org/summer-enrichment-program Dwight-Englewood School, 315 East Palisade Avenue, Englewood, NJ 07631, 201-569-9500
For more information, please email us at summerprograms@d-e.org or call (201) 227-3144.

ROCKLAND COMMUNITY COLLEGE – SUMMER COMPUTER CAMP
Interested in computers? This program is for you! This is the program for kids who are on a computer all day and are a master of webs searching! Campers will learn many things including computer programming, 3D animation, video game development, website design, and more. With more than fifty classes to choose from in technology, science, visual arts, math, and business, children ages 5-14 will explore many disciplines to satisfy their interests and creativity.  [http://www.internationalivy.com/]
Ridgewood Montessori School, 70 Eisenhower Dr, Paramus, NJ, 908-899-1338

MAD SCIENCE OF MID-HUDSON
Children in grades 1-6 experiment, explore, and learn real world science techniques through discussions, activities, and demonstrations. Various locations across Rockland County including The Challenger Center in Suffern, NY, 845-294-5434 / [http://midhudson.madscience.org/rocklandcamps.aspx]

PROJECT OCEANOGRAPHY - RESIDENTIAL OCEAN CAMP:
Full Week Long Overnight Camp, Campers Entering Grades 6-12+
Cruise the waters of Long Island Sound and conduct oceanographic research. Study salt marshes, rocky intertidal zones, sandy beaches and near-shore marine life. Under the guidance of professional marine scientists, camp participants will use marine science research equipment such as sediment corers, salinity meters, nutrient test kits, dissolved oxygen meters, otter trawls and seine nets. All programs are aligned with state and national standards. Tuition includes: meals, boat transportation, program materials, and lodging. Our activities are adjusted according to tide schedules, weather and age of campers.

REWILDING SCHOOL – WILD SUMMER CAMP:
Set your imagination free this summer in some of Westchester's wildest preserves, as we go off-trail to explore new habitats, discover new skills & ancient crafts...and play lots of epic games! Wild Summer sessions run 9 AM-3 PM (half-day programs run 9:30-12) and are led by experienced naturalists certified in First Aid and trained in wilderness survival skills. Enrollment is non-refundable except in case of program cancellation and space is limited. Extended care is available upon request from 8-9 AM and 3-5 PM. 27 Pine St, Lake Peekskill, NY, 10537 [https://www.rewildingschool.com/summer].
