

In Celebration of both STEAM careers & Women's History Month your class will participate in a unique *virtual visit*.

In the spirit of promoting a love of science to *all* our students, and to demonstrate that there are many careers related to STEAM, renowned science writer / author **Dava Sobel** will be SKYPING into Nyack middle school, via our Library. *Your students are encouraged to ask questions of our distinguished, but accessible visitor.*

For your information:

**Dava Sobel, a former *New York Times* science reporter**, and long-time science contributor to *Harvard Magazine*, *Discover*, *Life*, *Omni*, and *The New Yorker*, is the **author of *Longitude*\*** as well as *Galileo's Daughter*, *The Planets*, etc. \* *Longitude* became a PBS TV series as well.

Her most recent book, (seen *above*,) documents women's contributions to mapping our vast universe. *Btw: We DO have a copy in our NMS library in advance of this virtual visit.*

Of note: **Ms. Sobel received the Individual Public Service Award from the National Science Board "for fostering awareness of science and technology among broad segments of the general public."**
