

ROCKLAND COMMUNITY COLLEGE PRESENTS

GIRLS IN STEM

20
19

Did you know?

Only 15-25% of women make up the STEM workforce. RCC wants to increase that percentage! Join us as we present exciting **STEM learning opportunities** and hands-on activities. The world needs more women in high-tech STEM jobs. Let us help launch your careers right here! Meet our faculty who will be available to answer your questions.

Two girls per school. Participants will receive a certificate of completion. Participants will need to arrange a ride to the campus and back.
