

PUBLIC OPEN HOUSE

for the GREATER NYACK BIKE / WALK MASTER PLAN

TUESDAY, JUNE 12

7:00 - 8:30 P.M.

Nyack High School Auditorium

There were 52 vehicular crashes that involved pedestrians or cyclists in the Nyack School District from 2015-2017. That count doesn't include two fatalities in the last four months - including one in May at the intersection of Broadway and Main Street in Nyack.

Recommendations and findings from the Greater Nyack Bike/Walk Master Plan, a six month study of the streets, sidewalks, bike lanes, and crosswalks in the Nyack river villages and the school district, will be presented by the study team in an interactive, open house format.

What you will hear affects all of us! Your feedback is important.

Spanish speakers will be available.

Can't make the Public Open House? Visit the website at BikeWalkGreaterNyack.com to submit your comments on the "Get Involved" page.
