

TRANSFORMATIVE TUTORING

How We Support Middle Schoolers

Test Prep Tutoring

Our expert tutors support students with the SHSAT, ISEE, SSAT, TACHS, and many other standardized exams. After assessing a student's individual needs, our tutors design custom learning programs to improve students' mastery of test content, strategy, and test-taking skill. By analyzing the qualitative factors underlying score trends, we can build confidence and develop tailored techniques to unlock peak performance.

Test Prep Classes

For students who learn best in a collaborative environment, CATES classes offer leading results in test preparation. Built upon the CATES Core, our proprietary curriculum, classes feature low student-teacher ratios and individualized performance analysis to ensure each student meets their potential.

Academic Tutoring

Whether it's extra help with classwork and tests or custom extension programs for gifted students, our academic tutoring team provides all the tools students need to achieve in school. Our tutors are experts in their fields and understand how to propel students towards lasting grade improvements while nurturing a genuine passion for learning.

Education Planning

Our Education Planning team helps students and families to navigate the formative school years with clarity and purpose. We assist students with high school and college applications and everything in between, including extracurricular activities, summer programs, and more. From helping students to discover their passions and make the most of their unique talents to providing expert advice and logistical support, we're there through every step in building a student's future.

ABOUT CATES

CATES is an education company based in New York. Since 2002, we have worked closely with families and schools in the US, UK, and Europe to create custom-fit learning programs that maximize students' potential by focusing holistically on the academic, psychological, emotional, and physical elements of learning.

Working with CATES to achieve their goals gives students an opportunity to acquire new skills, develop new learning habits, and build a confidence in their own abilities that will carry them far beyond any class, test, or application, and into the next phase of their lives.

TESTIMONIALS

CATES helped my son increase his SHSAT score by over 200 points. Our tutor expertly prepared Milo for the mental challenge of the exam experience—he has never felt so confident before going into an test. She was not only a guru in her field, but also a lovely person who truly wanted to see Milo excel.

— Julia K.

We worked with CATES to boost Yasmin's grades and for help with specialized high school admissions. In both instances, we had an exceptional experience. Our tutors were calm, dedicated, and infinitely knowledgeable. You have our family's deepest gratitude!

— Farah A.
