

High Schools with Additional Application Procedures

Certain schools require you to complete additional items in order to be considered for their programs. Remember, a school may not consider a student for admission unless all application/admissions requirements have been met so it is very important that you fulfilled all requirements.

Please be aware that this list represents information that ESMS has been able to gather and/or has received thus far. You are encouraged to seek information about other high schools as this list is ***not exhaustive and is in no way a recommendation*** for the high schools listed. NOTE: Information may be subject to change without prior notice so please feel free to confirm directly with the schools.

The following is a list of schools that require additional components in order to be considered:
