Dear Parent/Guardian:

The New York City Department of Education is writing to inform you of new requirements in the New York State immunization regulations that may affect your child.

- Four to five doses of **DPT/TD** are now required for all students. Previously, three doses were required.
- **Students entering the 7<sup>th</sup> grade will be required to be vaccinated for meningitis. The vaccine is medically known as MenACWY (quadrivalent meningococcal conjugate vaccine).**

Please send in an updated immunization card or note from your doctor in September. Remember that failure to have your child properly immunized may lead to exclusion from school.

For the full set of immunization requirements please visit [www.nyc.gov/health](http://www.nyc.gov/health) or [www.is72.org](http://www.is72.org) (parent resources). If you have any questions regarding any of these vaccines, please discuss them with your physician.

Sincerely,

A handwritten signature in dark ink, appearing to read "Peter Macellari". The signature is written in a cursive style with a large initial "P".

Peter Macellari
