

5th Grade ROCKS

June 2020

Dear Rising 5th-grade students and families,

Your teachers are eagerly awaiting your arrival to 5th grade this fall. We have a lot of fun learning planned for you and we can't wait to get started! This email provides a welcome from the 5th grade team as well as some helpful resources for summer learning.

Fifth grade is a special grade. It is your last year of elementary school and things will be a little different than your other elementary school years. Fifth graders will have a homeroom teacher and a different teacher(s) for each subject. You will learn more about your classes and your teachers this fall.

Also, listed below, are some fun activities to keep your brain busy this summer so you are all ready to begin your 5th grade year.

We wish you all a wonderful summer. We are excited to begin our new partnership. We look forward to getting to know you and working with you this fall.

Warmest regards,
The 5th-grade team
