OUR PRIMARY GOALS

- To ensure digital equity for ALL students
- To provide ALL students remote learning instruction that is engaging and flexible, allowing for on-screen and off-screen time. Using Google Classroom as our digital platform and various other online tools
- To provide social emotional supports and guidance
- To be partners with our families during remote learning & continuously communicate with you
- To celebrate our children during remote learning
- To support one another and keep our HCCS community connected

#HCCSSTRONG!
We will be using a “Hybrid Model” that employs the following digital platforms:

We want to ensure that our students receive a quality remote learning experience that meets grade level expectations. Many of our families consist of essential workers or have unique family obligations and demands. That being said, we respect the unique experience which each family is undergoing and understand that a live class experience is not always possible. We believe the model we have chosen is truly the best fit that is equitable for all our students, teachers, and families.

Our “Hybrid Model” consists of pre-recorded instructional materials supplemented by live sessions available via Google Classroom at any time.

**Recorded Instruction + Live Sessions = Hybrid Model**

Remote learning is new for our entire school community. We appreciate your patience as we continue to develop the best virtual learning experience for our children.
HOW WILL THE MODEL BE IMPLEMENTED?

Our teachers will:

- Use both taped versions of their lessons in which they upload a video of themselves on Google Classroom teaching a lesson/strategy and live sessions on Google Meets/Google Hangouts in which they are engaging their students in a Read Aloud, Shared Reading or in a Content Area Lesson.

- Provide age appropriate links to websites offering reading material to students enabling them to continue Independent Reading on their respective reading levels.

- Examples: EPIC, Bookflix, Razkids, IXL, Reading A-Z, Newsela & Brooklyn Public Library.

- Paper materials such as workbooks (Phonics, Math, Science, and Greek) as well as writing booklets.

- HCCS will ensure that coursework is aligned to our educational program, and coursework will be tailored to students’ needs (including students with disabilities and English language learners).
Children will:
- Check in for daily attendance between 8:05 am – 9:00 am daily
- Actively engage in the lessons and watching the videos
- Use school-assigned device only for school work. School approved apps only.

Parents will:
- Review teacher feedback with their child/ren prior to contacting the teacher
- Privately email teachers with any questions, rather than using the Google Classroom Stream.
  Reminder: The online classroom is for the students and teachers to communicate
- Respect that teacher professional working hours are 8:00 am - 4:00 pm (note: we kindly ask that if you contact a teacher, allow 24 hours for the teacher to respond.)
- Notify your child’s teacher and administration if you need assistance due to being impacted by COVID-19. This includes parents that are essential workers or have family members who have been impacted, and might therefore need to modify a student’s schedule.
Students will:
✓ Sign in between 8:05 am – 9:00 am
✓ Watch all videos very carefully prior to completing independent work.
✓ Submit assignments directly into Google Classroom. Please no private emails to teachers with classwork. This ensures that all student work is properly collected and reviewed by the teacher, who will then provide feedback.
✓ Provide student work handwritten and submitted by uploading an image to the classroom assignment, not typed, unless stated in the directions.
✓ Complete work on their own. For example, parents should not assist with tests and quizzes. Teachers use students’ work to see what skills and strategies they will need to revisit and plan for future lessons.
✓ Complete work on-time. If there is a personal need for time extension, a parent should inform the teacher that morning.
✓ Check past work for teacher feedback and resubmit if asked.
Teachers will:
✓ Post daily plan by 8:05 am and take attendance by 9:05 am.
✓ Post instructional videos for ELA, Math and other content areas.
✓ Post resources to supplement virtual instruction and independent work in various areas.
✓ Provide feedback on assignments within 24 hours.
✓ Respond to parent correspondence within 24 hours.
✓ Provide students with 1 to 2 non-instructional Google Hangouts/Google Meet sessions each week for peer interaction (ex: fun Friday, birthday celebrations, snack and chat).
Student will:
