

Busing and Pick-Up Schedule and Procedures

To help alleviate the congestion and confusion up front, we are going to implement a new procedure for 2016-2017. One teacher/assistant will take busing students to the bus while the other teacher/assistant keep their pick-ups/walkers in the classroom to be delivered after buses leave. This ensures that we do not get confused with the two groups and ensure that we know who officially receives our pick-up students. Once the buses leave the pick-up staff will bring their students to be individually delivered to parents.
