

Code of Conduct

I. Introduction

The Carmel Central School District is committed to providing a safe and orderly school environment where students may receive and District personnel may deliver quality educational services without disruption or interference. Responsible behavior by students, teachers, other District personnel, parents and other visitors is essential to achieving this goal and the members of the Board of Education and administrative and teaching staff are committed to leading by example.

The District has a long-standing set of expectations for conduct on school property and at school functions. These expectations are based on the principles of civility, mutual respect, citizenship, character, tolerance, honesty and integrity. District personnel who interact with students are expected to place emphasis on the students' ability to grow in self-discipline use disciplinary action only when necessary. The Board recognizes the need to make its expectations for student conduct while on school property or engaged in a school function specific and clear. VIII. *Disciplinary Penalties, Procedures and Referrals*

Discipline is most effective when it deals directly with the problem at the time and place it occurs, and in a way that students view as fair and impartial.

Disciplinary action, when necessary, will be firm, fair and consistent so as to be the most effective in changing student behavior. In determining the appropriate disciplinary action, school personnel authorized to impose disciplinary penalties will consider the following:

1. The student's age.

3. The student's prior disciplinary record.
4. The effectiveness of other forms of discipline.
5. Information from parents, teachers and/or others, as appropriate.
6. Other extenuating circumstances.

As a general rule, discipline will be progressive. This means that a student's first violation will usually merit a lighter penalty than subsequent violations.

If the conduct of a student is related to a disability or suspected disability, the student shall be referred to the Committee on Special Education and discipline, if warranted, shall be administered consistent with the separate requirements of this code of conduct for disciplining students with a disability or presumed to have a disability.

C. Procedures

The amount of due process a student is entitled to receive before a penalty is imposed depends on the penalty being imposed. In all cases the school personnel authorized to impose the penalty must inform the student of the alleged misconduct, give the student an opportunity to respond to the charged conduct, and must investigate, to the extent necessary, the facts surrounding the alleged misconduct. All students will have an opportunity to present their version of the facts related to the alleged misconduct to the school personnel imposing the disciplinary penalty.

Penalties beyond an oral or written warning to students or parents are:

1. Detention

[Teachers,] Deans, Assistant Principals, Principals, Assistant Superintendents, and the Superintendent may use after school detention as a penalty for student misconduct in situations where removal from the classroom or suspension would be inappropriate. Detention will be imposed as a penalty only after the student's parent has been notified to confirm that there is no parental (or designee's) objection to the penalty and the student has appropriate transportation home following detention.

2. Suspension from transportation

If a student does not conduct himself/herself properly on a bus, the bus driver is expected to bring such misconduct to the building principal's (or designee's) attention by using the bus referral form. Students who become a serious disciplinary problem may have their riding privileges suspended by the building principal, the Superintendent or their designees. In such cases, the student's parent will become responsible for seeing that his or her child gets to and from school safely. Should the suspension from transportation amount to suspension from attendance, the district will make appropriate arrangements to provide for the student's education.

A student subjected to a suspension from transportation is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the building principal or the principal's designee to discuss the conduct and the penalty involved.

3. Suspension from athletic participation, extracurricular activities and other privileges.

A student subjected to a suspension from athletic participation, extra-curricular activities or other privileges is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the suspension to discuss the conduct and the penalty involved.

4. In-school suspension.

The Board recognizes the school must balance the need of students to attend school and the need for order in the classroom to establish an environment conducive to learning. As such, the Board authorizes deans, assistant principals, building principals and the Superintendent to place students who would otherwise be suspended from school as the result of a code of conduct violation in "in-school suspension." The in-school suspension teacher will be a certified teacher or teaching assistant. A student subjected to an in-school suspension is not entitled to a full hearing pursuant to Education Law §3214. However, the student and the student's parent will be provided with a reasonable opportunity for an informal conference with the District official imposing the in-school suspension to discuss the conduct and the penalty involved.

5. Teacher disciplinary removal of disruptive students.

A student's behavior can affect a teacher's ability to teach and can make it difficult for other students in the classroom to learn. In most instances the classroom teacher can control a student's behavior and maintain or restore control over the classroom by using good classroom management techniques. These techniques may include practices that involve the teacher directing a student to briefly leave the classroom to give the student an opportunity to regain his or her composure and self-control in an alternative setting. Such practices may include, but are not limited to: (1) short-term "time out" in an elementary classroom or in an administrator's office; (2) sending a student to a guidance or support staff if available.

Time-honored classroom management techniques such as these do not constitute disciplinary removals for purposes of this code. When the techniques above are not effective in reducing the disruptive behavior or not appropriate to employ, the teacher may remove the student in adherence with the following guidelines:

- A classroom teacher may remove a disruptive student from class for up to two days. The removal from class applies to the class of the removing teacher only.
- If the disruptive student does not pose a danger or ongoing threat of disruption to the academic process, the teacher must provide the student with an explanation for why he or she is being removed and an opportunity to explain his or her version of the relevant events before the student is removed.
- If the student poses a danger or ongoing threat of disruption, the teacher may order the student to be removed immediately
- The teacher must explain to the student why he or she was removed from the classroom and give the student a chance to present his or her version of the relevant events within 24-hours.
- The teacher must complete a District-established disciplinary removal form and meet with the principal or his or her designee as soon as possible, but no later than the end of the school day, to explain the circumstances of the removal and to present the removal form. (If the principal or designee is not available by the end of the same school day, the teacher must leave the form with the secretary and meet with the principal or designee prior to the beginning of classes on the next school day.)
- Within 24-hours after the student's removal, the principal or another District administrator designated by the principal must notify the student's parents, in writing, that the student has been removed from class and why. The notice must also inform the parent that he or she has the right, upon request, to meet informally with the principal or the principal's designee to discuss the reasons for the removal. The written notice must be provided by personal delivery, express mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the student's removal at the last known address for the parents. Where possible, notice should also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents. If the parent requests the informal conference, the principal may require the teacher who ordered the removal to attend the informal conference. If at the informal meeting the student denies the charges, the principal or the principal's designee must explain why the student was removed and give the student and the student's parents a chance to present the student's version of the relevant events. The informal meeting must be held within 48 hours of the student's removal. The timing of the informal meeting may be extended by mutual agreement of the parent and principal.
- The principal or the principal's designee may overturn the removal of the student from class if the principal finds any one of the following:
 1. The charges against the student are not supported by substantial evidence.
 2. The student's removal is otherwise in violation of law, including the District's code of conduct.

3. The conduct warrants suspension from school pursuant to Education Law §3214 and a suspension will be imposed.

Removal of a student with a disability, under certain circumstances, may constitute a change in the student's placement. Accordingly, no teacher may remove a student with a disability from his or her class until he or she has verified with the principal or the Director of Pupil Services that the removal will not violate the student's rights under state or federal law or regulation.

6. Suspension from School

Suspension from school is a severe penalty, which may be imposed only upon students who are insubordinate, disorderly, violent or disruptive, or whose conduct otherwise endangers the safety, morals, health or welfare of others. The Board retains its authority to suspend students, but places primary responsibility for the suspension of students with the Superintendent and the building principals. Suspension procedures are to be adhered to as follows:

- Any staff member may recommend to the principal that a student be suspended. All staff members must immediately report and refer a violent student to the principal or the Superintendent for a violation of the code of conduct. All recommendations and referrals shall be made in writing unless the conditions underlying the recommendation or referral warrant immediate attention. In such cases a written report is to be prepared as soon as possible by the staff member recommending the suspension.
 - The Superintendent or principal, upon receiving a recommendation or referral for suspension or when processing a case for suspension, shall gather the facts relevant to the matter and record them for subsequent presentation, if necessary.
- a). Short-term (5 days or less) suspension from school.

When the principal (referred to as the "suspending authority") proposes to suspend a student charged with misconduct for five days or less pursuant to Education Law §3214(3), the suspending authority must immediately notify the student orally. If the student denies the misconduct, the suspending authority must provide an explanation of the basis for the proposed suspension. The suspending authority must also notify the student's parents in writing that the student may be suspended from school. The written notice must be provided by personal delivery, overnight mail delivery, or some other means that is reasonably calculated to assure receipt of the notice within 24 hours of the decision to propose suspension at the last known address for the parents. The suspending authority ought to attempt to reach the parents by telephone if the school has been provided with a telephone number(s).
- The notice shall provide a description of the charges against the student and the incident for which suspension is proposed and shall inform the parents of the right to request an immediate informal conference with the principal. (Both the notice and informal conference shall be in the dominant language or mode of communication used by the parents.)

- At the conference, the parents shall be permitted to ask questions of complaining witnesses under such procedures as the principal may establish. (The notice and opportunity for an informal conference shall take place before the student is suspended unless the student's presence in school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process.)
- If the student's presence does pose such a danger or threat of disruption, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.
- After the conference, the principal shall promptly advise the parents in writing of his or her decision. The principal shall advise the parents that if they are not satisfied with the decision and wish to pursue the matter, they must file a written appeal to the Superintendent within five business days, unless they can show extraordinary circumstances precluding them from doing so.
- The Superintendent shall issue a written decision regarding the appeal within 10 business days of receiving the appeal. If the parents are not satisfied with the Superintendent's decision, they must file a written appeal to the Board of Education with the District Clerk within 10 business days of the date of the Superintendents' decision, unless they can show extraordinary circumstances precluding them from doing so. Only final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

b). Long-term (more than 5 days) suspension from school.

- When the Superintendent determines that a suspension for more than five days may be warranted, he or she shall give reasonable notice to the student and the student's parents of their right to a fair hearing.
- At the hearing the student shall have the right to be represented by counsel, the right to question witnesses against him or her and the right to present witnesses and other evidence on his or her behalf.
- The Superintendent shall personally hear and determine the proceeding or may, in his or her discretion, designate a hearing officer to conduct the hearing. The hearing officer shall be authorized to administer oaths and to issue subpoenas in conjunction with the proceeding before him or her.
- A record of the hearing shall be maintained, but no stenographic transcript shall be required. A tape recording shall be deemed a satisfactory record. The Superintendent or hearing officer shall make findings of fact and recommendations as to the appropriate measure of discipline. The report of the hearing officer shall be advisory only, and the Superintendent may accept all or any part thereof.
- An appeal of the decision of the Superintendent may be made to the Board that will make its decision based solely upon the record before it. All appeals to the

Board must be in writing and submitted to the District clerk within 10 business days of the date of the Superintendent's decision, unless the parents can show that extraordinary circumstances precluded them from doing so. The Board may adopt in whole or in part the decision of the Superintendent. Final decisions of the Board may be appealed to the Commissioner within 30 days of the decision.

C). Permanent suspension

Permanent suspension is reserved for extraordinary circumstances such as where a student's conduct poses a life-threatening danger to the safety and well-being of other students, school personnel or any other person lawfully on school property or attending a school function. Permanent suspension is determined through procedures attained in Education Law 3214(3a) and by the Superintendent of Schools of his/her designee.

D. Minimum Periods of Suspension

1. Students who bring a weapon to school:

Any student, other than a student with a disability, found guilty of bringing a weapon onto school property will be subject to suspension from school for at least one calendar year. Before being suspended, the student will have an opportunity for a hearing pursuant to Education Law §3214. The Superintendent has the authority to modify the one year suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the following:

- a. The student's age.
- b. The student's grade in school.
- c. The student's prior disciplinary record.
- d. The Superintendent's belief that other forms of discipline may be more effective.
- e. Input from parents, teachers and/or others.
- f. Other extenuating circumstances.
(A student with a disability may be suspended only in accordance with the requirements of state and federal law.)

2. Students who commit violent acts other than bringing a weapon to school:

Any student, other than a student with a disability, who is found to have committed a violent act, other than bringing a weapon onto school property, shall be subject to suspension from school for at least five days. If the proposed penalty is the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension. If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parents will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

2. Students who are repeatedly substantially disruptive of the educational process or repeatedly substantially interfere with the teacher's authority over the classroom:

Any student, other than a student with a disability, who repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom will be suspended from school for at least five days. For purposes of this code of conduct, "substantially disruptive" means engaging in conduct that results in the student being removed from the classroom by teacher(s) pursuant to Education Law §3214(3-a) and this code on four or more occasions during a semester, or three or more occasions during a trimester. If the proposed penalty is the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for an informal conference given to all students subject to a short-term suspension.

If the proposed penalty exceeds the minimum five-day suspension, the student and the student's parent will be given the same notice and opportunity for a hearing given to all students subject to a long-term suspension. The Superintendent has the authority to modify the minimum five-day suspension on a case-by-case basis. In deciding whether to modify the penalty, the Superintendent may consider the same factors considered in modifying a one-year suspension for possessing a weapon.

E. Referrals

1. Counseling:

The Pupil Services Support staff and /or Guidance staff shall handle all referrals of students to counseling.

2. PINS Petitions:

The District may file a PINS (person in need of supervision) petition in Family Court on any student under the age of 18 who demonstrates that he or she requires supervision and treatment by:

- a. Being habitually truant and not attending school as required by part one of Article 65 of the Education Law.
- b. Engaging in an ongoing or continual course of conduct which makes the student ungovernable, or habitually disobedient and beyond the lawful control of the school.
- c. Knowingly and unlawfully possesses marijuana in violation of Penal Law § 221.05. A single violation of § 221.05 will be a sufficient basis for filing a PINS petition.

3. Juvenile Delinquents and Juvenile Offenders:

The Superintendent is required to refer the following students to the County Attorney for a juvenile delinquency proceeding before the Family Court:

- a. Any student under the age of 16 who is found to have brought a weapon to school, or
- b. Any student 14 or 15 years old who qualifies for juvenile offender status under the Criminal Procedure Law §1.20 (42).

The Superintendent is required to refer students age 16 and older or any student 14 or 15 years old who qualifies for juvenile offender status to the appropriate law enforcement authorities.

IX. *Alternative Instruction*

When a student of any age is removed from class by a teacher or a student of compulsory attendance age is suspended from school pursuant to Education Law §3214, the District will take immediate steps to provide alternative means of instruction for the student. Alternative instruction will be provided to students with disabilities in appropriate Interim Alternative Educational Settings ("I.A.E.S.")

X. *Suspension of Students with Disabilities*

In the event that a student has a known disability or when school officials can be deemed to know, accordance with law, that a student has a disability or meets the suspected of having a disability standard, the District will first proceed to conduct a §3214 long term disciplinary proceeding for any suspension of more than five days. The §3214 disciplinary proceeding will be held in two parts, first to determine the student's guilt or innocence on the charges and the second to determine the penalty.

If guilt is determined, before a penalty may be imposed, the following rules shall apply:

§504/ADA Disability

For a student solely with a disability under §504 of the Rehabilitation Act of 1973 ("§504")/Title II of the Americans with Disabilities Act (hereinafter referred to as the "ADA"), the §504 multi-disciplinary committee must make a determination regarding whether the conduct underlying the charges was a manifestation of the student's disability.

1. If a nexus is found between the disability and the conduct, *no* additional discipline shall be imposed and the record of discipline imposed to date shall be expunged.
2. If no nexus is found, discipline may be imposed upon remand to the §3214 hearing officer. A change in placement; i.e. a suspension, removal or transfer, in excess of ten (10) school days must be preceded by notice and an evaluation conducted by the §504 team.
3. Students with a recognized §504/ADA disability who are known to be currently engaged in the illegal use of drugs or alcohol, who are found to be using or in possession of alcohol or drugs may be disciplined, regardless of their disability status, in the same manner and to the same extent as non-disabled students.

IDEA Disability

For students classified or presumed to have disabilities under the IDEA (a student with an educational disability), a Manifestation Team must make a Manifestation Determination prior to a student's suspension for over 10 school days or prior to a suspension of 10 days or less, if it has been determined that a suspension for less than ten consecutive school days would constitute a disciplinary change in placement.

A series of suspensions that are each ten (10) days or fewer in duration may create a pattern of exclusions that constitutes a disciplinary change in placement. That determination will be made on a case-by-case basis in accordance with applicable law and regulation. Among the factors to be considered in making this determination are the length of each suspension, the proximity of the suspensions to one another, and the total amount of time the student is excluded from school. A student shall be presumed to have a disability if prior to the time the behavior occurred:

1. The parent or guardian of the child has expressed in writing to supervisory or administrative personnel of the appropriate educational agency or to a teacher of the student that the student is in need of special education, provided that such notification may be oral if the parent does not know how to write or has a disability that prevents a written statement; *or*
2. The parent of the student has requested an evaluation of the student; *or*
3. A teacher of the student or other personnel of the District has expressed specific concern about a pattern of behavior demonstrated by the student to supervisory personnel in the District in accordance with the District's child-find procedures.

A student shall not be presumed to have a disability for discipline purposes, despite satisfaction of one or more of the above criteria, if:

1. The parent of the student has not allowed a relevant evaluation of the student by the Committee on Special Education ("CSE");
2. The parent of the student has refused special education services; *or*
3. It was determined by the CSE or Committee on Preschool Special Education ("CPSE") that the Student is not a student with a disability; *or*
4. It was determined that an evaluation was not necessary and the District provided appropriate notice to the parents of such determination.

Manifestation Determinations

A Manifestation Team, which shall include a representative of the school district knowledgeable about the student and interpretation of information about child behavior, the parent and relevant members or the committee on special education as determined by the parent and the school district. The parent must receive written notification prior to any manifestation team meeting to ensure that the parent has an opportunity to attend and inform the parent(s) of their right to have relevant members of the CSE participate at the parent's request.

1. When making a manifestation determination, the Manifestation Team shall review all relevant information in the student's file including the student's IEP, any teacher observations and any relevant information provided by the parents to determine if:
 - a. The conduct in question was caused by or had a direct and substantial relationship to the student's disability; *or*
 - b. The conduct in question was a direct result of the school district's failure to implement the IEP.

If either of the aforementioned criteria listed as "a." and "b." above are answered affirmatively, the conduct in question shall be deemed to be a manifestation of the student's disability.

When the Manifestation Team determines that the conduct in question was a manifestation of a student's disability, the CSE shall recommend and conduct a functional behavioral assessment and implement (or modify) a behavior intervention plan in accordance with 8 NYCRR § 201.3 and 201.4(d)(2)(a)).

A meeting for the sole purpose of making a manifestation determination does not require five calendar days' notice to the student's parent or guardian. However, if the CSE meets to consider a change in placement in conjunction with the manifestation determination, the five-day notice requirement of §200.5(a)(3) of the Commissioner's Regulations will be applicable.

Discipline of Students With Disabilities When the Manifestation Team has made an Affirmative "Manifestation Finding"

When an educationally disabled student's conduct is a manifestation of the child's disabling condition, a student classified under IDEA may only be suspended from school for more than ten(10) consecutive school days, if one of the following applies:

1. The CSE recommends a change in placement on the student's Individualized Education Plan (IEP) and Behavior Intervention Plan and the parent, guardian or eighteen-year or older student consents to such change in writing following receipt of their Procedural Safeguards Notice.

2. A court order or order from an impartial hearing officer of suspension/removal of a dangerous student pursuant to 8 NYCRR 201.8 is obtained.
3. The violation involves weapons, drugs/controlled substances or serious bodily injury.

Suspensions for Misconduct Involving Weapons and/or Drugs and/or Serious Bodily Injury When the Manifestation Team has made an Affirmative “Manifestation Finding”

A student classified or suspected of having a disability under IDEA may be suspended and placed in an Interim Alternative Educational Setting (“IAES”) for up to forty-five (45) school days (less if the discipline is for a non-disabled student would be less), if the student is found guilty of: possessing a weapon while at school, on school property or while at a school function; knowingly possessing or using illegal drugs, or selling or soliciting the sale of a controlled substance while at school, on school premises or while at school function; or inflicting a serious bodily injury to another person while at school or a school function.

1. In accordance with law, the term "weapon" means "a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2-1/2 inches in length."
2. In accordance with law, the term "illegal drugs" means controlled substances but not those legally possessed or used under the supervision of a licensed health care professional or other permitted authority under the Federal Controlled Substances Act or under any other provision of Federal law. Controlled substances are drugs and other substances identified under schedules set forth in applicable Federal law provisions.
3. In accordance with law, the term "serious bodily injury" means bodily injury which involves a substantial risk of death; extreme physical pain; protracted and obvious disfigurement; or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

Before a student is suspended and placed in an IAES for up to 45 school days for behavior involving weapons and/or drugs and/or serious bodily injury, the Manifestation Team must conduct a manifestation determination. Placement in an IAES as a result of conduct involving weapons and/or drugs and/or serious bodily injury is not contingent upon a Manifestation Team determination that the misconduct is not related to the student's disability.

1. If the student is or may be placed in an IAES, the CSE shall, as appropriate, recommend functional behavioral assessment and behavior intervention, or review any such pre-existing plan for modification; and
2. A CSE shall determine and recommend an IAES reasonably calculated to enable the child to continue to receive educational services, participate in the general curriculum and progress toward meeting IEP goals and objectives during the period of suspension from instruction.

Dangerous Students

To continue the suspension of a student classified or deemed to be known as having an education disability under IDEA for more than 10 consecutive school days, the School District may commence an expedited hearing before a special education impartial hearing officer to demonstrate that a student is “dangerous” and is substantially likely to cause injury to himself or others if returned to his last agreed upon placement. An impartial hearing officer may order the placement of the student in an interim alternative setting for up to forty-five (45) school days in accordance with 8 NYCRR §201.8 and 201.11.

1. The Manifestation Team shall conduct a manifestation determination within 10 school days of the initial disciplinary action.
2. If the student is or may be placed in an IAES, the CSE shall, as appropriate, recommend a functional behavioral assessment and behavior intervention plan, or review any such pre-existing, plan for modification; and
3. An impartial hearing officer’s determination allowing a student’s placement in an IAES as a result of dangerous behavior, is not contingent upon a Manifestation Team determination that the misconduct is not related to the student's disability. The IAES placement shall be based upon the CSE’s recommendation.

Discipline of Students With Disabilities when the Manifestation Team has made a “No Manifestation Finding”

Where a student with a disability’s conduct is found not to be a manifestation of his/her disability he/she may be disciplined in the same manner and to the same extent as non-disabled students. In such instances, the CSE shall meet upon proper notice to determine any appropriate evaluations which must be performed, if any, changes to a student’s IEP, if any and to recommend an appropriate IAES where the child can continue to receive educational services, although in another setting, that enable the child to participate in the general education curriculum and progress toward meeting IEP goals and objectives during the period of suspension from instruction. Where a suspension or disciplinary change in placement will exceed 10 school days, the CSE shall determine whether conducting a functional behavioral assessment and implement or modify a behavior intervention plan, as well as implement modifications intended to avoid a recurrence of the behavior.

Pendency Placement

An IAES shall be deemed the student's “stay put” placement for up to forty-five (45) school days, during the pendency of any expedited due process proceedings commenced by parents to contest 1) a finding that a student is not “presumed to have a disability”, and/or 2) a finding that the student’s misconduct was not a manifestation of the student’s disability, and/or 3) a decision to place a student in a CSE recommended IAES for misconduct involving weapons and/or drugs and/or serious bodily injury, and/or 4) the decision of an impartial hearing officer in a dangerousness hearing and/or 5) the appropriateness of an IAES program recommended by the CSE in the context of one of the four categories of action listed above.

Declassified Students

In accordance with law, the CSE must conduct a manifestation determination in the case of a student with an educational disability who has been declassified if the disciplinary matter involves behavioral problems.

XI. *Corporal Punishment*

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

In situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of school District functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's Regulations.

XII. *Student Searches and Interrogations*

The Board of Education is committed to ensuring a safe and orderly atmosphere on school property and at school functions. To achieve this, any school official authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the District Code of Conduct. Students are not entitled to any sort of "Miranda"-type warning before being questioned by school officials, nor are school officials required to contact a student's parent before questioning the student. However, school officials will tell all students why they are being questioned.

In addition, the Board authorizes the Superintendent, building principals, assistant principals, deans, the school nurse and District security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the District Code of Conduct.

An authorized school official may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the school official has a legitimate reason for the very limited search.

An authorized school official may search a student or the student's belongings based upon information received from a reliable informant. Individuals, other than District administrators, teachers and teaching assistants and employees with specialized training in the detection of drug and alcohol use, will be considered reliable informants if they have previously supplied information that was accurate and verified, or they make an admission against their own interest, or they provide the same information that is received independently from other sources, or they appear to be credible and the information they are communicating relates to an immediate threat to safety. Such persons will be considered reliable informants unless they are known to have previously supplied information that they knew was not accurate. Before searching a student or the student's belongings, the authorized school official should give the student the opportunity to admit that he or she possesses physical evidence, violated the law or the District Code, and voluntarily consents to the search. Searches will be limited to the area necessary to locate the evidence sought. Whenever practicable, searches will be conducted in the privacy of administrative offices and students will be present when their possessions are being searched.

A. Student Lockers, Desks and other School Storage Places

The rules in this Code of Conduct regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

B. Documentation of Searches

The authorized school official conducting the search shall be responsible for promptly recording the following information about each search

1. Name, age and grade of student searched.
2. Reasons for the search.
3. Name of any informant(s).
4. Purpose of search (that is, what item(s) were being sought).
5. Type and scope of search.
6. Person conducting search and his or her title and position.
7. Witnesses, if any, to the search.
8. Time and location of search.
9. Results of search (that is, what items(s) were found).
10. Disposition of items found.
11. Time, manner and results of parental notification.

The building principal or the principal's designee shall be responsible for the custody, control and disposition of any illegal or dangerous item taken from a student. The principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s), until the items is turned over to the police. The principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to police authorities.

C. Police Involvement in Searches and Interrogations of Students

District officials are committed to cooperating with police officials and other law enforcement authorities to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with police work. Police officials may enter school property or a school function to question or search a student or to conduct a formal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function; or
3. Been invited by school officials when reasonable suspicion to believe a crime on school grounds has taken place.

Before police officials are permitted to question or search any student, the building principal or his or her designee shall first try to notify the student's parent to give the parent the opportunity to be present during the police questioning or search. If the student's parent cannot be contacted prior to the police questioning or search, the questioning or search shall not be conducted. The principal or designee will also be present during any police questioning or search of a student on school property or at a school function. Students who are questioned by police officials on school property or at a school function will be afforded the same rights they have outside the school. This means:

- They must be informed of their legal rights.
- They may remain silent if they so desire.
- They may request the presence of an attorney.

D. Child Protective Services Investigations

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to child protective services when they have reasonable cause to suspect that a student has been abused or maltreated, the District will cooperate with local child protective services to the extent allowable pursuant to the relevant guidance, statutes, and case law.

XIII. Visitors to the Schools

The Board encourages parents and other District citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the school will be considered a visitor.
2. All visitors will adhere to the visitor sign-in protocols for the particular school they are visiting.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings or public gatherings, are not required to register.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the building principal.
5. Teachers are expected not to take class time to discuss individual matters with visitors.
6. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors are expected to abide by the rules for public conduct on school property contained in this code of conduct.

XIV. Public Conduct on School Property

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions. For purposes of this section of the code, "public" shall mean all persons when on school property or attending a school function including students, teachers and District personnel. The restrictions on public conduct on school property and at school functions contained in this code are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to the objectives of the District. The purpose of this Code is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending a school function shall conduct themselves in a respectful and orderly manner. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose they are on school property.

A. **Prohibited Conduct**

No person, either alone or with others, shall:

1. Intentionally injure any person or threaten to do so.
2. Intentionally damage or destroy school District property or the personal property of a teacher, administrator, other District employee or any person lawfully on school property, including graffiti or arson.
3. Disrupt the orderly conduct of classes, school programs or other school activities.
4. Distribute or wear materials on school grounds or at school functions that are obscene, advocate illegal action, appear libelous, obstruct the rights of others, or are disruptive to the school program.
5. Intimidate, harass or discriminate against any person on the basis of race, color, creed, national origin, religion, age, gender, sexual orientation or disability.
6. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.
7. Obstruct the free movement of any person in any place to which this code applies.
8. Violate the traffic laws, parking regulations or other restrictions on vehicles.
9. Possess, consume, sell, distribute or exchange alcoholic beverages, controlled substances, or be under the influence of either on school property or at a school function.
10. Possess or use weapons in or on school property or at a school function, except in the case of law enforcement officers or except as specifically authorized by the school District.
11. Loiter on or about school property.
12. Gamble on school property or at school functions.
13. Refuse to comply with any reasonable order of identifiable school District officials performing their duties.
14. Willfully incite others to commit any of the acts prohibited by this code.
