## INTRODUCTION

The Delaware Township School District serves students in grades pre- kindergarten through grade eight. ## **STUDENT ATTENDANCE**

### **Attendance Committee**

The supervisors, school nurse, guidance counselor and other staff as needed make up the Delaware Township School Attendance Committee. This state required committee will convene when necessary to discuss excessive absenteeism cases as they arise. You will be notified if we are concerned about your child's attendance. We will discuss your child's absences, the reasons for them and determine an appropriate solution.

## **Attendance Requirements**

Regular attendance is important to academic and social success and mandated by law for children between the ages of six and sixteen. State law requires that children attend school 180 days each year. The only absences that are considered excused are those approved by the state.

## **Tardiness**

School begins promptly at 8:50 am. If your child arrives after that time he or she must report to the visitor's entrance window to sign in. Your child will be issued a late pass that will allow him/her to proceed to class.

**The State of New Jersey requires all school districts to track attendance and tardiness pursuant to N.J.S.A. 18A:38-25 through 31 and N.J.A.C. 6A:32-8 and 13.1.**

## **Chronic/Lengthy Illness**

If your child has a chronic health and mental health issue that causes frequent absences, please call and discuss the situation with the school nurse. We are sensitive to issues of this nature and will work with you to see that your child receives the best possible support and educational program we can offer.

## **Family Vacations**

Days taken for family vacations are not considered excused absences. If your family takes vacation during the school year, advance schoolwork is difficult to provide. Teachers may recommend reading material and suggest that children keep a journal, but this does not compensate for class time missed. Therefore, we ask that parents use discretion when planning family vacations.

## **Make-up Work**

If your child is absent two or more consecutive days due to illness, please make arrangements through the main office to have your child's make-up work picked up. These assignments can be brought home by siblings or neighbors, or picked up after 3:15 pm in the school office.

### **Reporting Absences**

Please notify the school as soon as possible when your child is going to be absent by calling 609-397-3179; you can reach this mailbox by pressing “1” from the main menu or by pressing “9” and then extension 504. Your message should include your child’s name, the teacher’s name, and the reason for the absence. We ask that you call the school each day your child is absent. We retrieve our attendance messages after 9:10 am each day. If a child is absent and no call is on record, you will be contacted via telephone to ensure that your child is safe.

### **Returning to School**

A doctor’s note is required upon return to school after an absence of three consecutive days. This will be placed in your child’s health record.

In the event of an emergency which necessitates the early closing and dismissal of students, the following procedures will be implemented:

- The appropriate agency or agencies that deal with emergencies will be notified (police, fire, rescue, power & light).
- If needed, students will be evacuated to a safe area.
- The Superintendent will maintain communication with the BOE, supervisors and other appropriate agencies.
- The Supervisor will maintain appropriate communication with the nurse, faculty and staff.
- The school will notify parents of all students via a Blackboard Connect broadcast message.
- All classroom teachers will refer to the emergency closing form to determine that each student knows what he/she will do when arriving home early.
- Students unable to be left off at home will be brought back to school and supervised until they can be picked up.

### **Please Note:**

In the event of snowfall during the school day, we will announce early closings by means of a Blackboard Connect broadcast message. We will also await word from the police that the road department is clearing the roads, as the initial snowfall is the most slick and dangerous. Please be advised that occasionally emergencies other than inclement weather result in the early closing of school. It is recommended that parents make arrangements, early in the school year, for their child's safety and supervision in the event of an early dismissal. Please be advised to notify your child's teacher of these arrangements.

## **CONFERENCES**

Communication between the school and home maximizes a student's potential for success. Parents and teachers are encouraged to communicate individually throughout the school year. The opportunity for school-wide conferences is provided so that parents and teachers can discuss the child's program on a formal basis. Topics covered at conferences may include: the educational and personal growth of a student, specifics pertaining to the curriculum and school programs, long range goal planning, and methods to avert or solve problems.

## **GRADING SYSTEM/HONOR ROLL**

Middle School Grading Scale (Effective September, 2010)

100-97	A+	79-77	C+
96-93	A	76-73	C
92-90	A-	72-70	C-
89-87	B+	69-67	D+
86-83	B	66-65	D
82-80	B-	Below 65	F

Calculation for achievement on Honor Roll for middle school students is as follows: Students in grades 6, 7, and 8 who earn the numerical equivalent of 90% with **NO** "C" grades will be recognized on the Honor Roll at the end of each marking period. Teachers will review and discuss grading procedures at Back to School Night.

## **ELIGIBILITY FOR PARTICIPATION IN EXTRA-CURRICULAR ACTIVITIES**

Participation by students in extra-curricular programs is a valuable aspect of the educational process. Such participation shall be in concert with acceptable overall academic achievement and shall not be the overriding factor in the student's education program. Students participating in extra-curricular programs are expected and encouraged to maintain a level of scholastic achievement which will enable them to graduate and succeed in the future. The policy on eligibility applies to all extra-curricular activities that meet beyond the school day. This policy encompasses all sports and any activities that are approved by the Board of Education. The school administration,

coaches, advisors and teachers will be responsible for providing support and assistance to encourage the highest level of academic achievement possible from students participating in these extra-curricular activities.

Participation in extra-curricular activities is a right which carries with it certain responsibilities including: maintaining satisfactory academic achievement; recognizing that participants in extra-curricular activities represent the school and community and should project positive images of both; maintaining standards of conduct during school attendance as outlined in the school handbook and individual rules and procedures for each sport and activity set forth by the coach or advisor.

A student is eligible for participation in extra-curricular activities if he/she has received the following: a passing grade in all subject areas and no outstanding incompleteness and unsatisfactory behavior/conduct performance in all school areas.

A student who falls below any of the above standards while participating in a sport or activity will become ineligible as of the day of the receipt of a report card at the end of the marking period. A student may be made ineligible or may be reinstated based on the above criteria at the direction of the administration upon receiving a progress report from a subject teacher. A student's eligibility may be reinstated in that sport or activity after he/she has demonstrated satisfactory grades, conduct and behavior as determined by the administration in consultation with the teachers. A student may be immediately reinstated by the administration after he/she has satisfactorily completed an incomplete grade on a report card.

### **HOMEWORK**

It is the position of Delaware Township School that homework has a value and must be an integral part of the learning process. Its purposes include, but are not limited to: reinforcing skills, extending classroom learning, enriching academics, and developing productive study habits. Homework becomes the students' opportunity to begin to establish a regular practice of completing tasks, studying, working independently and preparing for adult responsibility. This will ultimately result in the practice of self-discipline and life-long respect of learning.

Homework is the essential link between the classroom and home. It is an extension of the educational experience by communicating curricular skills and objectives to the parent. Homework provides a structure for regular teacher-parent-student dialogue, which is the paramount support system of the educational process. Specific information regarding homework procedures, at each individual grade level, is discussed at Back to School Night.

**Requests for homework will be honored only after two (2) or more consecutive days absent. For each day missed, the student will be given a one-day make up time to complete assignments. Requests should be made through the school office between 8:00**

**and 8:30 am and may be picked up after 3:15 pm in the school office.**

### **LOCKERS**

Student lockers are the property of the Delaware Township Board of Education and are subject to search. Students are permitted to go to their lockers only during designated times throughout the day.

### **HEALTH POLICIES**

**COMMUNICABLE DISEASE:** The nurse may send a child home when there is a possibility that the student is showing signs of a communicable disease.

**FIRST AID:** Only emergency first aid is given at school. Injuries that occur at home should be cared for at home.

**ILLNESS:** PLEASE DO NOT SEND A SICK CHILD TO SCHOOL. They must be temperature-free (less than 100 degrees) without Tylenol/Motrin and/or vomiting/diarrhea free for 24 hours. Please review nose-blowing, coughing/sneezing and hand washing procedures with your child to prevent the spread of infections. When children become ill at school, they will be sent home. A child must not call his/her parents to come for them in the case of an illness, but must go to the health office and ask the nurse to make that call.

**INSURANCE:** If a child is seen by a physician or dentist because of an accident and you have purchased accident insurance through the school, please notify the nurse as soon as possible. This is necessary so that a claim form may be completed. Parents are reminded that the so-called “school insurance” is a contract between the parents and the insurance company.

**MEDICATION:** Regulations for administration of medication in school are as follows: All school medication forms must be completed by your health care provider. This includes over-the-counter as well as prescription medication (e.g., cough/cold medicines, allergy pills, etc.) This order shall include the name of the medication, dosage and the length of time for which it is prescribed. A written request from the parent giving permission to the administration and relieving the Board of Education and its employees of liability for administration of medicine must also be sent. Medication must be brought to school

in the original container and taken immediately to the health office. Only emergency medications such as Epi-Pens and inhalers may be carried by students with permission from the health care provider and parents.

**PHYSICAL EDUCATION EXCUSE:** If you feel that your child should not take physical education on a given day, please send a note from home requesting this and giving the reason. If the absence from physical education class is to continue for more than three consecutive days, a note from a physician is needed.

**PHYSICALS:** New students are required to have a physical before starting school. It is recommended that students have medical examinations at least one time during each developmental stage (PreK- grade 3, grades 4-6 and grades 7-12). Sport physicals are required for participation on school sport teams with a full report sent to the school. The exam needs to be done within 365 days prior to the first practice session. Fall physicals are due 8/16/18, winter physicals 10/22/18 and spring physicals are due 2/18/19. Physicals must be handed in on time in order for the school doctor to process and approve prior to the beginning of the season.

### **AFFIRMATIVE ACTION/SEXUAL HARASSMENT**

It is the policy of the Delaware Township School District not to discriminate on the basis of race, color, creed, religion, sex, ancestry, national origin, or social or economic status in its education programs, activities and employment policies as required by Title IX of the Education Amendments of 1972 and N.J.A.C. 6:4-11 et seq. A Comprehensive Equity Plan is available through the Superintendent’s office. Inquiries regarding compliance of the plan may be directed to Supervisor, Mrs. Kathleen Racile and the Affirmative Action Team at Delaware Township School, 609-397-3179. Sexual harassment of staff and children interferes with the learning process and will not be tolerated at Delaware Township School. Any child or staff member who has knowledge of or feels victimized by sexual harassment should immediately report his/her allegation to one of the Affirmative Action Team members.

## **INTERVENTION AND REFERRAL SERVICES COMMITTEE (I&RS)**

Delaware Township School strives to have students be successful socially, emotionally, and educationally. Most students are able to find success within the regular education program. Sometimes, however, they may need assistance. The Intervention and Referral Services (I&RS) Team was formed to help teachers with students in their classrooms. The team consists of the supervisors, referring teacher, school counselor, school nurse, other teachers and a member of the child study team. I&RS is not, however, a function of the child study team. I&RS utilizes colleague's knowledge to develop strategies that will bring about success in the classroom. Parents are always invited to participate as a member of the I&RS team. Together the team develops an individual strategy list of accommodations as part of an educational plan for the student. Teachers or parents may request assistance from the I&RS team. The team generally meets once a month.

Therefore, all members of the public will be expected to follow the steps outlined below, moving to the next step only in the event of dissatisfaction with the decision rendered at the previous step..."* Parents, students, and other community members are strongly encouraged to deal directly with the person who can most immediately address their concern.
