

District/School Grades
For the Implementation of the
Anti-Bullying Bill of Rights Act

Since the inception of the Anti-Bullying Bill of Rights Act in 2011, the Delaware Township School District has continued to make progress in addressing incidents of and providing programs for harassment, intimidation, and bullying. Our teachers regularly integrate character education themes into their curriculum throughout all grade levels, our school counselor provides classroom and individual programming as needed, and our parent organization (Partners in Education) supports programming/assemblies that address these issues. Our faculty and staff are trained annually; and we utilize our school climate team periodically through the year by brainstorming and evaluating school-wide programs.

In completing the self-assessment, we continue to have strong reporting and investigation procedures and we improved in the area of curriculum and instruction. We continue to work toward updated training opportunities for general faculty as well as our school climate team.

We continue to strive toward increasing preventative measures in the form of exciting and interactive events for our students.
