By: Bryce

Kindergarten: The kindergarteners are learning shapes. They are also counting by tens. They are writing sentences. They wrote a letter to the leprechaun. They're reading about music and they are learning circles.
By: Alexia

First Grade: In First Grade they read *How A Seed Grows*. They are adding and subtracting using 10 frames.
By: Zuri

Second Grade: Second Grade is working on weather disasters for reading. In math they are working on place value and money. For writing they are learning contractions, using adjectives and adverbs, and creating informative paragraphs in their writing.

By: Addison

Third Grade: Third Grade is working on weather and natural disasters and doing a weather report on a location. They are also learning about 4 types of climate(dry,tropical,polar, and temperate). In math they are learning about the attributes of quadrilaterals.

By: Ella

Fourth Grade: They wrote new casts on natural disasters. For reading they read about and studied natural disasters like hurricanes,tornadoes, and volcanoes. For math they learned all about angles and measuring with protractor.

By: Jazlyn

Fifth Grade: Fifth grade is working on 2-digit and 3-digit multiplication. They are also solving problems using ratio tables. In reading they are reading books about space and science fiction. In science they are working on the water cycle. The Fifth grade is working hard on preparing for the IAR test.

Have a great spring break!
