

# 2020-2021 Georgia Fall Probe Fair College Tours

We've created a high school student sign up web page at [gaprobe.org/students](https://gaprobe.org/students). Please share this link with your students and encourage them to complete the form.

This will allow us to directly email them when tour registration goes live and to provide updates on participating colleges.

The virtual fall tour will occur in two mini-fairs during the evenings of:

October 5-7

November 2, November 4-5

Panels and presentations will be available through Zoom Webinars and pre-registration for each session is required. There is no charge to participate.

Parents may sign up for registration announcements and information updates at [gaprobe.org/parents](https://gaprobe.org/parents).

We realize not having an in-person Fair will be different than in years past; however, we are confident that Georgia high school students and their families will be able to learn more about colleges and universities through this format.
