

Chromebook Info

ALL students at CES will have a chromebook available for checkout. You DO NOT need to sign up or complete anything to request one.

We will have a station set up on pick up days to complete/turn in paperwork and check out a chromebook for each CES student that needs one.

Virtual Students

If you have a device at home, you do not need to check out a chromebook from school, but if at any time your personal device does not perform as well as you would like, you can come check out a school one at any time. If you don't have a device at home or enough devices for all of your children, each CES student can check out a chromebook from school.

In Class Students (beginning on August 24th on AB Schedule)

If you have a device at home, it is up to you on whether or not you want to check out a school chromebook. Chromebooks that are checked out will have to be brought back and forth between home and school because your child will need one while on campus too.

1. If you have a device for your child to use at home, your child's CES chromebook can remain at school for her/him to use while on campus. You never need to send your personal devices with your child to school.
2. If you don't have a device for your child to use at home or enough for all of your children, we have chromebooks for all CES students. They will be checked out like library books. These chromebooks will have to be brought back and forth between school and home so the student has access to use in both locations.
