109.3

The school performance score summarizes how well a school is preparing all of its students for the next level of study. For elementary schools, this score is based on students' mastery of key content for their grade level, and their successful transition into 9th grade for schools with 8th grade students. For high schools, this score also measures graduation rates and how well schools are preparing students for college and a career. Schools that are K-2 configurations have accountability data based on a paired school, designated by its district.
