

**Please join us in raising awareness of what
Down Syndrome is by wearing gold/yellow
on Wednesday, March 21
in honor of World Down Syndrome Day.**

Dr. Harris

World Down Syndrome Day (WDS), March 21, is a global awareness day which has been officially observed by the United Nations since 2012.

Down Syndrome International (DSi) encourages supporters all over the world to choose their own activities and events on WDS to help raise awareness of what Down syndrome is, what it means to have Down syndrome, and how people with Down syndrome play a vital role in our lives and communities.

Why 21 March?

The date for WDS -- the 21st day of the 3rd month -- was selected to signify the uniqueness of the triplication (trisomy) of the 21st chromosome, which causes Down syndrome.
