How do I order pictures from a share site?

If you want to order high-quality prints of photos posted to a share site, it's easy. Plus, new customers can get up to 50 free 4x6 prints!

All you need to do is go to a share site's "Pictures & Video" page, click on an album, then click the "Select pictures" button. This will open the 'Select pictures' dialog box - simply click on a picture to select and add it to your order. When you have finished selecting pictures, click the "Order prints" button. Alternately, you can click "Slideshow" to view all of the pictures in the album one-by-one and click the checkbox to add the current picture to your order.

Then, just follow the instructions to order prints – the process will walk you through the steps. First, you'll be able to select the size and number of prints you want to order for each of the pictures you've selected. Next, you can review your order (quantity and cost). Finally, you'll choose a shipping address, enter/verify your billing information, and finally checkout.

If you are not already a Shutterfly member, you'll be offered the opportunity to join for free as part of the order process. As part of joining, you'll get your first 50 4x6 prints for free (excluding shipping costs). As a Shutterfly member, you can easily track the order in your account's order history.
