

The Osnaburg Local School District has established village cluster stops for students' pick-up and drop-off. Designated safety locations have been determined. There are a total of (12) cluster stops, utilizing buses 2, 5, & 8 for these routes. *The cluster stop locations and times are listed below.* Students may walk up to .5 mile to these assigned bus stops; however the majority of the students who utilize these stops walk a much shorter distance. If a student resides in the map areas listed below and plan on riding to and/or from school on the bus, they are responsible to be at their designated (closest to their home) cluster stop location 5-10 minutes prior to the pick-up time.
