Austin Road PTO After-School Science Program

Mad Science activities are so much fun that children forget they are learning! These recreational science programs are designed to help all kids learn to enjoy science.

Spring 2019: Science Mysteries & Fantastic Forces

This super science sampler lets kids investigate a different science topic each week with fun take-home projects. Kids will be engineers, chemists, and stunt pilots. Children will have fun with physics and learn the science behind magic tricks. Your Mad Scientists will be shocked by what they learn about electricity, blown away by their experiments with air pressure and swept away by the excitement of working with waves. Students will make and take home their own crystal garden, a center-of-gravity game, a "magic" box which make objects disappear, a "Skyhawk" foam plane, an "Air Blaster" foam rocket launcher, a bridge building kit, and a Cartesian diver.

Dear Families,

Welcome to the 2018-2019 school year! We hope the summer has been restful and enjoyable. As you know, the PTO facilitates numerous programs throughout the year that help earn money for Austin Road, thus providing the children with an exciting and memorable elementary school experience. One such program is Box Tops for Education.

Box Tops coupons can be found on hundreds of different products, ranging from food to household cleaning supplies. While most coupons are each worth 10 cents, there are those unique bonus coupons worth much more. Collecting Box Tops is a simple process, with two options available. After clipping each coupon, you may either collect them in a baggie or attach them to one of the various collection sheets sent home each month. We ask that you please label the baggie and/or collection sheet with your child’s name and teacher before submitting it/them to school. At the start of each month, several submissions will be randomly selected to receive a special treat, courtesy of the PTO.

For your convenience, please find a list of collection tips on the back of this page. Should you have any questions as to how the program works, or require additional information pertaining to the collection process, please feel free to contact one of us. Thank you, in advance, for your support and participation.
