Want to filter your news feed?

Use your left navigation pane to filter your feed.

Click each connection on the left and your news feed will show posts created by members of that list only.

To see:

- Only post you've shared with 'Just Me', click **ME**
- Only posts pertaining to your family's connections, click **FAMILY**
- If you're also a member of a group, filter your feed on the group's conversations by clicking on the group's name, listed under **GROUPS**
- To view posts by everyone, click **All** (default)

To filter your feed on a type of post, use the filter buttons located directly under the SHARE buttons in Conversations and click:

- **All** to view all posts (default)
- **Pinned** to view the items you have pinned (using the pushpin button).
- **Files** to view posts with file attachments.
- **Photos** to view posts with photo attachments.
- **Events** to view the events requiring RSVP, sign up, or events that were shared with a notification.
- **Users** to view posts shared by a contact (teacher, school administrator, fellow parent)

**Invite other family members** to join by clicking the envelope icon next to your family name.

Then enter the name and email address, and LivingTree will send them an invitation to join. Once they accept, they will receive the same information from your children's classes and schools.
