

The Walt Disney Magnet STEAM School Google Classroom Protocol

Google Classrooms 1,2,3

We will be doing Remote Learning until the end of this school year. What does that mean for our students? For us that means that our teachers will be using the following main things to assess your child for the 3rd marking period: Daily attendance, Google Classroom Work & iReady.

Scheduling Flexibility

All students must log in daily to have their attendance accounted for. We do understand that we have parents that are essential workers with very hectic schedules and it is not our desire to add any more stress to their workloads. With that understanding we encourage parents to reach out to their child's teacher, to let us know if there is a challenge with scheduling. Parents can set up a flex schedule for when their child will be online actively working and handing in assignments.

Expectations

Google Classroom Student Work - **It is important that as students do their work online that they are completing assignments and putting their best work out there.** This work is what teachers are assessing for our 3rd marking pd. Parents, if possible please check your child's work before they submit for a grade. Students must hit the TURNED IN button to submit their work so that teachers are able to see the completed assignments.

iReady

Students working on iReady - Reminder, iReady is self adaptive to the student's needs. iReady assesses a child's strengths and areas that are in need of improvement. It is very important for students to do their iReady work without parental assistance, so that there is a true assessment of the student's abilities.
