

Hello!

I'm Miss Stelzer

☺ Greetings Students and Parents ☺

My name is Veronica Stelzer and I am thrilled to be the new School Counselor at Oysterponds Elementary School! I am so excited to work together with the OP staff and community. This year will be full of learning, growing, and exploration!

I want to take a moment to tell you a few things about me! I am a North Fork native! I attended Mattituck High School, graduated from Fairfield University with a BA in Psychology and then completed my Masters Program in School Counseling at Long Island University. For 3 years, I worked at Cutchogue East Elementary School as a substitute teacher. Then, I began my school counseling career in 2019 at Westhampton Beach High School as a leave replacement counselor for 16 months.

In my free time, I enjoy spending quality time with friends and family, playing soccer and snuggling with my cat and dog.

Drink: **ICED TEA**

What Does a School Counselor Do?

My role as a School Counselor is to work with students both individually and in small group settings. I will also be conducting classroom guidance lessons in collaboration with the teachers. It is my responsibility to make sure students are both academically and mentally balanced. I do this by providing social-emotional support and academic resources.
