

The Lafourche Parish School District Child Nutrition Program will provide “curb-side” lunch meals for LPSD enrolled students only at each of the 27 cafeteria locations beginning August 10, 2020. Meals must be picked up at the school the student is enrolled. If the parent or guardian is picking up meals for multiple students, who attend multiple schools, meals can be given at one site, but all students’ names receiving meals must be given at that time.

Students must be in the vehicle. If the student is not in the vehicle, the parent or guardian must sign a Consent form acknowledging the meal is for the student. (See Consent form attached).

Each school will have a specific meal pick-up time and menu. Refer to the school website for menu & pick-up time.

Not all meals are free. Only those students enrolled at a Community Eligibility Provision (CEP) school, directly certified or have an approved meal application on file will receive the meal for free. Reduced price and full price students are expected to have enough money in their meal account to cover the cost of the meal. No money will be collected curb-side.

Meal benefit applications may be completed online starting Friday August 7, 2020 at www.myschoolapps.com. Also, online payments are available at myschoolbucks.com (fee accessed).

This service is being offered to all LPSD enrolled students until all students are back to “on campus” learning or the lack of participation warrants another option.

This institution is an equal opportunity provider.

Lafourche Parish Child Nutrition
