Dear Parent(s) / Guardian(s):

Your child will be administered the InView Assessment as part of the Penn-Trafford School District Testing Program. The InView measures the full range of verbal, nonverbal and quantitative skills that are critical to academic success. This particular test will provide us with information regarding each child's abilities in these specific areas. This assessment provides insight into your child's expected achievement, which includes strengths and weaknesses. Each level of this assessment includes five different 20-item tests. The total testing time is from 95 – 105 minutes. The specific skills tested include the following:

Sequences

Measures the student's ability to analyze a pattern in a row of pictures then select the answer that would complete the sequence.

Analogies

Measures the student's ability to infer parallel relationships between incomplete picture pairs.

Verbal Reasoning – Words

Measures the student's ability to infer relationships between separate but related sets of words and to draw logical conclusions from short reading passages.

Verbal Reasoning – Context

Measures the student's ability to draw a logical conclusion from the context of a short passage.

Quantitative Reasoning – Critical Thinking in Numbers

Measures the student's ability to identify arithmetic patterns and draw logical conclusions.

Mrs. Miller's class will be tested on Friday, February 28, 2020. If you have any questions or concerns, please contact the school at 724-744-2161.

Sincerely,

Mr. Jeffrey Swartz
Principal
