HIV/AIDS Prevention Curriculum Letter

Dear Parent or Guardian:

Your child's health is important to us. In New York City public schools, we provide health education classes that include age-appropriate lessons about family health, sexuality and HIV/AIDS, in addition to other important health topics.

Statistics show that we have students who are having sex before the age of 13; students who have had multiple sexual partners; and students who aren't protecting themselves against sexually transmitted diseases and HIV/AIDS. We have an important role to play with regard to educating our children about sex and the potential consequences of engaging in risky behavior. We must provide our students with accurate information and communication skills to help them make decisions that can keep them healthy and safe. To that end, the required one-semester, comprehensive health education course in both middle and high school must also include age-appropriate sexual health education, as well as the HIV/AIDS lessons that are required each year for students in grades K-12.

We understand that our students and their families have a range of beliefs, cultures and customs. As a parent/guardian, you have the right to keep your child out of some sexual health and HIV/AIDS lessons about birth control and methods of HIV/STD prevention. However, you cannot remove your child from abstinence or other sexual health education lessons. If you have questions about which lessons you may opt your child out of, please check with your child's teacher, parent coordinator, or me. You can also view the entire NYCBOE HIV/AIDS Curriculum online at

<http://schools.nyc.gov/Academics/FitnessandHealth/StandardsCurriculum/HIVAIDScurriculum>.

If you would like your child to be excused from birth control and HIV/STD prevention lessons, you must complete and return the reverse side of this letter stating that:

- Your child should not be in the classroom during lessons about birth control and methods of HIV/STD prevention; and
- You will provide instruction on prevention to your child in your home.

As in all areas, parents and guardians are a child's first and most influential teachers. Parents, guardians and schools share a common goal: we want students of all ages to be healthy in all aspects of their lives. When it comes to talking with students about sex, our shared goal is to delay sexual activity in school-age youth. We encourage you to ask your child what he or she is learning in health education class and to make sure your child knows what you believe are the best ways to lead a healthy life. Conversations you have with your child about sexual health will place the information they are receiving in health class in the context of your family's values. Again, if you have any questions about health education or would like to review our school's health education curriculum, please contact your child's teacher or me.

Sincerely,

William C. Bassell
Principal

HIV/AIDS Prevention Curriculum Letter

Sign and return only if you **DO NOT** want your daughter/son to participate HIV/AIDS lessons about birth control and methods of HIV/STD prevention. It must be noted that this option shall not apply to students who are 18 years or older, who are or who have been married, who are parents, or who are entitled under the law to give consent for themselves. If you have more than one child enrolled in the school, please complete a separate form for each child.

My Son/daughter _____,
Print full name of student

Who is in grade 9 10 11 12 at _____ High School, **IS NOT** to participate in the **birth control and HIV/STD prevention lessons component of the program.**

My daughter's/son's Public School Identification Number is
