

Dear Parents,

We are very excited to have your child in Kindergarten next year! Below, please find a list of content areas we would like the children to review during the summer months. As many of you are aware, the children have learned a great deal in pre-k! Unfortunately, statistics show that children can lose a percentage of what they learned in school over the summer months. To help with this, you can work with your children throughout the summer on the following topics to prepare for what we know will be a WONDERFUL kindergarten school year!

- Identification of letters: uppercase and lowercase
- Identification of sounds
- Identification of numbers

There are a number of websites and apps that you can use with your child to help assist in their continuation of learning over the summer. Please find these wonderful resources attached to this letter.

We look forward to seeing you all in September and having an amazing school year with you!

Thank you!
The Kindergarten Teachers
