2018-2021 Instructional Technology Plan - 2018

II. Strategic Technology Planning

Section II - Strategic Technology Planning

1. **What is the overall district mission?**

THE MOUNT PLEASANT BLYTHEDALE UFSD SHALL CREATE A COMMUNITY FOR THE EXCITEMENT AND LOVE OF LEARNING IN THE PURSUIT OF ACADEMIC EXCELLENCE AND PERSONAL GROWTH IN A CARING ENVIRONMENT SO THAT EACH CHILD, IN ACCORDANCE WITH HIS/HER TALENTS AND INTERESTS, MAY BECOME A RESPONSIBLE, CONTRIBUTING MEMBER OF SOCIETY.

2. **What is the vision statement that guides instructional technology use in the district?**

To employ technology as a tool for learning so that students can access, analyze, utilize and communicate information.

3. **List three goals that will drive the attainment of the vision.**

	List Goals
Goal 1	To provide staff development in the area of assistive technology to maximize student learning potential for a medically and physically complex population.
Goal 2	Under the supervision of the district's Instructional Technology Coordinator, maintain and update the school website to ensure that it is current and accurately reflects the school's initiatives.
Goal 3	To empower the Technology Committee in the implementation and monitoring the district's technology plan, specifically continually to upgrade and replace the district's obsolete assistive technology hardware and software.

4. **Do you want to list a fourth goal that will drive attainment of the vision?**

No

5. **Do you want to list a fifth goal that will drive attainment of the vision?**

No

6. **Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive instructional technology plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.**

District Technology Committee: the Technology Coordinator (Instructional Technology Coach), Superintendent, Principal, Assistant Principal, Technology Aide, BCH IT Department, and Business Administrator.

Outcomes of the Development meetings:

- To review, implement, and monitor the district's technology plan.
- To assist in the integration of technology into instruction.
- To review, maintain and update an acceptable use policy for the Mt. Pleasant-Blythedale UFSD.
- To evaluate software, hardware, and assistive technologies.
- To continue to build and update the district website.
- To ensure website adheres to ADA compliance.

2018-2021 Instructional Technology Plan - 2018**II. Strategic Technology Planning**

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision.

- Evaluating and maintaining assistive technology (AT).
- Evaluating students' AT needs.
- Providing ongoing technical assistance, workshops, and monthly training to administration, staff, and students.
- Implementing a turn-key training program.
- Provide oversight and training for student and staff to create and maintain web pages in compliance with website content accessibility guidelines (WCAG) 2.0.
- Providing technical support in the classroom.
- Providing support and assistance to the district in maintaining student information systems.
- Providing onsite technical support, staff workshops and teacher and student training in the use of assistive technology, peripheral devices, software, and computers.
- Providing assistance to teachers in integrating technology into their lessons.
- Consulting with teachers and hospital therapists on assistive technology needs helping to enhance the hospital school 'bridge' for the student's benefit.

8. How will the instructional technology goals be measured and evaluated during and after implementation? Be sure to include any tools or metrics that are part of this evaluation process.

The Technology Plan is reviewed and updated annually. The technology coordinator regularly attends local and regional workshops on current technology to keep the district informed of advances that may benefit the students. Additionally, BOCES LHRIC and other academic resources provide consult on purchases, methods of delivering instruction, accessing information, evaluating our current and future needs, etc.

Annually faculty is surveyed and data is collected on the following:

- Current utilization
- Progress on integration of curriculum with online information
- Perceived impact on learning
- Discovered critical skills for students
- Critical success factors for learning through technological sources
- Staff development needs
- Software needs

We also assess and try to measure technology effectiveness on:

- Student academic performance
- Administrative management and communication endeavors

IV. NYSED Initiatives Alignment

Section IV - NYSED Initiatives Alignment

1. Explain how the district use of instructional technology will serve as a part of comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.

1. The Mount Pleasant Blythedale UFSD utilizes technology and digital tools in all aspects of our student instruction that align with academic standards. The use of instructional and assistive technology will provide additional ways to access content and remove barriers. We have created digital learning goals to guide any instructional decisions about academic programs and digital learning support.

2. Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general curriculum. Describe how instruction is differentiated using technology to support the individualized learning needs of this student group.

The use of instructional and assistive technology affords multiple means to access and demonstrate knowledge, understanding and application of skill. Our teachers, administrators and members of the Technology Committee meet periodically during the year to discuss student requirements as well as contribute to the overall assistive technology plan. Technology support staff work with teachers to ensure that differentiated instructional strategies are included and supported across all curricular components. Students are supported through the use of various software resources aligned with their developmental levels. Programs with multimedia components including audio and video are used to develop skills as well as reinforce previously learned skills. Adaptive software provides opportunities for skill progression and differentiation. Basic word processing assists with the writing process. The district may utilize its website and class pages as an additional means of access to instruction and to strengthen the home-school connection. Any device selected for our learning environments have accessibility features and support all students.

3. How does the district utilize technology to address the needs of Students with Disabilities to ensure equitable access to instruction, materials, and assessments? Check all that apply.

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system).
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Assistive technology is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify in Question 3a, below)

4. Please select the professional development that will be offered to teachers of Students with Disabilities that will enable them to differentiate learning and to increase their student language and content learning with the use of technology. Check all that apply.

5. How does the district utilize technology to address the needs of English Language Learners/Multilingual Learners to ensure equitable access to instruction, materials, and assessments? Check all that apply.

- Class lesson plans, materials, and assignment instructions are available to students and families for 'anytime, anywhere' access (such as through class website or learning management system)
- Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
- Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
- Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
- Home language dictionaries and translation programs are provided through technology.
- Hardware that supports ELL/MLL student learning, such as home-language keyboards, translation pens, and/or interactive whiteboards, is utilized.
- Technology is used to increase options for students to demonstrate knowledge and skill, such as through the creation of a product or recording of an oral response.
- Learning games and other interactive software are used to supplement instruction.
- Other (please identify, in Question 5a, below)

6. The district's instructional technology plan addresses the needs of English Language Learners/Multilingual learners to ensure equitable access to instruction, materials, and assessments in multiple languages.

Yes

6a. If Yes, check one.

In the 5 most spoken languages in the district

6b. If 'Other' was selected in 6a, above, please explain here.

8. How does the district use instructional technology to facilitate culturally-responsive instruction and learning environments?

- The district uses instructional technology to strengthen relationships and connections with families to assist in building a culturally responsive learning environment to enhance student learning.
- The district uses instructional technology to facilitate classroom projects that involve the community.
- The district uses instructional technology to develop and organize coherent and relevant units, lessons, and learning tasks that build upon students' cultural backgrounds and experiences.
- The district uses instructional technology to assist in varying teaching approaches to accommodate diverse learning styles and language proficiencies.
- The district uses instructional technology to enable students to communicate and collaborate with students in different schools or districts in New York State, the United States, or with different countries.
- The district uses instructional technology to facilitate collaborative classroom projects among heterogeneous student groups.
- The district does not use instructional technology to facilitate culturally responsive instruction.
- Other (please identify in Question 8a, below)
