CRISIS INTERVENTION SERVICES

The Crisis Intervention Behavior Management Team provides intensive assessment and intervention services for individuals ages 3-25 in Staten Island for families that are in a crisis situation. These families require in-home training in order to provide strategies in managing the severe behaviors often associated with autism.

Individuals with autism often display challenging behaviors such as self-injury and aggression. These problems usually intensify in the home if they are not attended to properly.

* OPWDD ELIGIBILITY REQUIRED
