

Ball State University Community Tutoring List Spring 2018

Learning Center
North Quad – 350 – Muncie, IN 47306
(765) 285 – 1006

- Below is a list of Learning Center tutors who have shown an interest in tutoring members of the Delaware County and surrounding communities.
- You will need to contact the individual tutor by phone or email to arrange time, location, availability, and cost. Tutors are encouraged to meet in a public place or the university library.
- These tutors are Ball State students who have met the academic criteria for being a tutor on campus in the Learning Center. No other background checks have been done by the Learning Center for these tutors other than checking academic record and professor references, so if you require any other background checks you will need to discuss and arrange this with the tutor you contact.
- Ball State University Learning Center is providing this list as a courtesy: the tutors listed below will not be scheduled, supervised, or paid by the BSU Learning Center to tutor members of the community. Arrangements are the responsibility of the person seeking tutoring.

Tutor's Name	Subject Areas and Grade Levels	Contact Information
