Dear Parents & Guardians:

We will be doing the New York State mandated scoliosis screenings beginning in January. All the 9th grade boys will be screened during their physical education class. If your student had a private exam after July 1, 2019, the school screening will not have to be done.

Scoliosis is a curvature in the spine and can affect the function of parts of the body. Screening is performed by observing the uncovered spine.

Please initial next to your choice below and sign the bottom of this form. It is imperative that this form be returned to the school nurse A.S.A.P. These screenings are starting the week of November 18th.

_____ Yes, I want my child screened for scoliosis at school.
