

# *Sunnyside School Mission Statement*

It is our mission at Sunnyside School, along with our parents and community, to empower confident, life-long learners. Through rigorous instruction and high expectations we foster an environment that promotes learning through risk taking, inquiry, and discovery. We create a climate of acceptance and open communication that strengthens partnerships within our entire Sunnyside Family. Sunnyside students will leave well prepared and armed with the skills essential to be an integral part of society.
