A LETTER FROM THE SHEPHERDS

To the Classes of 2019-2022

Welcome back to a new school year. We trust that you are prepared to continue your education here as you work towards earning your high school diploma. While you embark on this journey of academic and personal development, keep in mind that you will encounter many challenges. The workload may be difficult and demanding at times as you balance your studies with family, friends and personal responsibilities. However, be aware that you are not on this journey alone. Single Shepherd staff will be with you along the way to help you transition and make it easier during your time in high school. You will find that the staff here is passionate about our work and we expect no less from our students. You are expected to be motivated, responsible, and most of all have fun. Students are encouraged to meet with their Shepherd at least twice per month, but may seek services anytime during office hours in suite 208. It is our hope that when you complete your high school career at Teachers Prep you will be different than when you began and will continue your process of learning and development well beyond the classroom, and throughout your lives. We are looking forward to working with you and are excited to watch you succeed this school year.

Sincerely,

The Single Shepherd team
