This event will make it possible for you to accomplish a number of things in one evening:

- Become an active PTA member
- Meet your child's teacher and other school personnel
- Learn about the instructional program
- Ask procedural and general questions
- Become acquainted with your child's classroom and our physical facility

As parents, you are a very important part of the educational process, and this event should provide you with an insight into your child's "school world," the adults your child sees and speaks with, the materials your child uses, and the activities with which he/she is involved 180 days of each year at Ward.
