

Join us for another great idea

STEM Saturday: spinners

Saturday

3/9/19

1 pm

Children's Area

38 Main Street

Salisbury, CT

ScovilleLibrary.org

860-435-2838

Spinner challenge! We will provide materials to design and build spinners. We will then find out which winners spin the longest. We will build at least three simple spinners and experiment with different mass distributions and shapes. We will touch on topics such as rotational inertia, rotational speed, angular momentum, and velocity.
