Welcome

Discussion Items

- Members discussed the fact that the soil is not conducive for planting of trees and beach grass would be a better fit for landscaping purposes.
- Dr. Hoffman pointed out that the fencing will be installed shortly and that a new basketball court is also planned in the color, blue, which should keep seagulls from dropping shells.
- Pictures of this year's play will be displayed by the Auditorium. In addition, it was suggested that awarded music trophies/robotics trophies also be displayed in a case by the auditorium.
- Members walked the upstairs hall and selected various pieces of artwork from the art show to be framed and displayed in the halls and the lunchrooms. It was also suggested that bulletin board strips be hung in the 'provider' hallway so artwork can be displayed in the hall in that wing. A member was going to check with Scholastic to see if they carry the strips that could be purchased with Scholastic dollars.
- The Physical Education Department will use the exhibit case outside the gym to display the various sports teams and activities.
- The members admired the grade 5 display case of the solar system. It was suggested that displays in the exhibit cases be rotated among the various departments.
- We will call the high schools to update their bulletin boards in the grade 8 hallway. It was suggested that the top students at the high school be spotlighted on the board to demonstrate how successful students can be.

Thank you for your commitment.
