

**How can I support a healthy return to school?**

Please make filling out the Health Evaluation Waiver part of your morning routine each day.

**What should I provide the nurse in my child's school?**

The nurse should be advised of any chronic medical conditions such as: asthma, allergies, and chronic gastrointestinal conditions. Please send in a note from your health care provider listing the chronic conditions if you have not done so previously.

**What if my child goes to the nurse during the day without a Covid-19 identified symptom?**

If they come to the nurse, the nurse will be checking their temperature but also assessing the student's complaint. If the complaint is not associated with **Covid-19** the student will be treated by the nurse and will return to class when ready.

**What is my responsibility if my child expresses one of the identified Covid-19 symptoms?**

The DOH has advised that any student who exhibits or complains about any of the common **Covid-19** symptom be isolated and picked up by a parent or guardian within 45 – 60 min. You will be advised to have your child seen by their Health Care Provider in order to return to school. The note must state they are clear to return to school AND must state they have been diagnosed with another condition.

*\* If a fever was involved the child must be fever free without any fever reducing medicine for at least 24 hours & a note from a doctor.*

**What if I do not take my child to a Health Care Professional?**

Your child will need to remain home for 14 days on the All-Virtual platform. If symptom free after 14 days, they can return with a parent note stating they quarantined.

**Symptoms:**

There are a wide range of symptoms reported-ranging from mild symptoms to severe illness. The following are common COVID symptoms:

- Fever
- Cough
- Shortness of breath or difficulty breathing
- Fatigue
- Muscle or body aches
- Headache
- New loss of taste or smell
- Sore throat
- Nausea or vomiting
- Diarrhea

This list is possible/common symptoms. CDC will continue to update this list as we learn more about **COVID -19**.
