

INTRODUCING A WILD NEW RIDE FOR YOUR SCHOOL AUDIENCES

EARTH, MOON & SUN

Coyote has a rascally reputation, but he's a little confused about what he does in this way.

Join this amusing character adapted from American Indian oral traditions in a fast-paced and fun children's show that explores lunar phases, eclipses and other puzzles.

Engaging and immersive, Earth, Moon & Sun also explains how humans learn through space exploration. Audiences age 5-11.

Running time: 28 minutes.

An original production of JPL's Flagstaff Planetarium and Science Center.
