### 2<sup>nd</sup> Grade Brave of the Week-**Marley Cade**

Marley is a fun and spunky kid. She has worked so hard this year. She loves her friends and classmates. She always volunteers to help out. Learning from home is not easy for anyone, but Marley gets up every school day and tackles her work no matter how hard it is. I am so proud of her for her hard work and progress.

### 3<sup>rd</sup> Grade Brave of the Week-**Kamara Armstrong**

Kamara has worked hard to finish out our school year! She is getting her work completed and turned in on time. Kamara always has a smile on her face. I will miss her when she moves to 4th grade!

### 4<sup>th</sup> Grade Brave of the Week-**Xander Spangler**

Xander has been working very hard during this time of eLearning! He is fun to be around, creative, and a good friend. I am glad I got to have him in my class this year!

### 5<sup>th</sup> Grade Brave of the Week-**Sophia Hoekesema**

Sophia has really worked hard during this season of eLearning. She is careful with her work and always turns in her best. She is a great example for her peers. She is missed very much!

---

Parents - Teachers are reaching out to set up times for pick up of your child's belongings from their classrooms. Appointments will be made the week of May 26 and we ask that only one parent come to the school during your scheduled time and maintain social distancing. Second grade parents, we will collect student iPads and ask that you bring your ipad to your appointment. We will NOT be collecting student laptops in grades three through five. As we continue to navigate the implications of COVID-19, we encourage you to wear a mask when picking up items.

Yearbooks - If you purchased a yearbook for the 2019-20 school year, those will be distributed in August. More information will be provided at that time as to how yearbooks will be distributed. I appreciate your patience. With the shut down of non-essential businesses, the yearbook has only recently been sent to the publisher for printing.

Thank you students and parents! We made it! I am proud of our students, staff and community as we have rallied around our students to provide for them educationally during this unprecedented time. It has meant sacrifice and has, no doubt, been stressful! Thank you, parents for your support and everything you have done at home to facilitate learning at home while teachers learned how to facilitate remote learning for an extended amount of time. Have a wonderful and restful summer!
