

About P23Q

P23 Q is a multi-site organization K-12, comprised of 5 different sites at various locations within day treatment agency and hospital settings. Our agency affiliates include NYCCC, (Intensive Day Treatment, Queens Day Treatment, Upper School, Fox Academy), Lifeline Center for Child Development, Zucker-Hillside Psychiatric Hospital, Elmhurst Hospital, and St. Mary's Hospital for Children.

None of our programs are located within a community school or a free-standing school building. We are considered a psycho-educational milieu. Students who attend P23 Q are admitted after all other options for school placement have been exhausted. We are the most restrictive placement within District 75, Citywide Programs. For any student to attend our school, they must be screened by the specific agency/hospital. Any decision, from admission to discharge and class placement, must include the clinical component and is collaborative.
