Dr. Parsons gave a report from the Budget Committee. At their last meeting, the committee discussed school carryover funds. The school as several encumbered items, in addition to payroll expenses and purchase orders. The school will have about $24,400 in carryover funds. For instructional supplies, the school has set aside approximately $12,800. This should help to offset any lost funds from reductions in fees that may be enacted by the Board of Education. Additional carryover funds will be used for other purchases and needs. New student desks will be purchased. In one of the classrooms, old carpet will be removed and tile will be installed. This year a retired ECE administrator was hired to provide part-time assistance in completing ECE paperwork. Half of the expense of the part-time administrator was provided by the district, and the school provided the rest. If the district offers the same opportunity, carryover funds will
be used to pay the school’s half. If the opportunity is not provided, the funds for this will be
moved for instructional supplies.

and inviting for parents. It was suggested that the references to “loitering” and “CPS” may give an impression that students or parents are acting illegally.
