

Grade 3

October Goals

Reading: Your child will review how to determine the main idea and make strong generalizations in their reading. They will refer to examples when explaining what the text says explicitly when determining a main idea or generalization based on both fiction and nonfiction texts.

Writing: Your child will write a powerful personal narrative to develop real life experiences, using effective techniques such as the use of sensory descriptive details, figurative language, and clear event sequences.

Math: Your child will perform operations with multi-digit whole numbers and with decimals to the hundreds. They will apply and extend previous understandings of multiplication and division to multiply and divide fractions.

Science: Your child will learn that the Earth is constantly being changed by processes that occur in and within its crust, in its atmosphere and on and within its waters.

Social Studies: Your child will continue to learn what degree geography determines culture.
