

LONG-RANGE FACILITIES PLANNING

To ensure that district facilities will be able to meet the future needs of the educational program, the board directs the Superintendent and Business Administrator, as appropriate, to develop procedures for collecting relevant information, including but not limited to:

- A. The changing educational needs of the district;
- B. Relations with the total community;
- C. Plant and site aesthetics;
- D. Changing makeup of district population as to age distribution, educational levels, etc.;
- E. Community planning and zoning;
- F. Financial ability of the school district;
- G. Safety and welfare of pupils;
- H. True economy reflecting full value for each tax dollar expended;
- I. Optimum access for disabled pupils;
- J. Relationship between projected new facilities and those already in existence.

Planning for major rehabilitation and remodeling will be incorporated into the school district master plan on a scheduled basis.

Substandard Facilities

All existing school facilities will be evaluated annually for their suitability to current district needs. Any facilities found to be substandard according to the administrative code shall be corrected as quickly as possible in compliance with law.

LONG-RANGE FACILITIES PLANNING

Monitored:

Indicators 1.1, 7.7, 7.8, 8.1

Recommendation:

A policy addressing demonstrated district needs.

Abbott districts may want to include references to providing adequate facilities to ensure successful implementation of Whole School Reform or an alternative program and early childhood education programs. *Long-range facilities plans shall ensure sufficient facilities for the delivery of art, special education, music, science and world languages consistent with the approved curriculum and instruction.*
