

EARLY CHILDHOOD EDUCATION/PRESCHOOL

The board of education believes that preschool educational experiences contribute to later academic success for all children. Therefore, within the limits of the budget and as required by law, the superintendent shall recommend to the board for approval programs designed for district children under the age required for regular admission. Programs shall address the needs of children who have been identified as requiring special education, as well as of those who have not been so identified.

The superintendent shall direct development of approved preschool programs. He/she shall ensure adherence to all applicable laws and regulations in pursuing funding at the federal and state levels, as well as from private sources.

Implementing procedures shall address the following:

- A. The preschool curriculum shall consist of developmentally appropriate experiences that provide each child with individual opportunities to develop positive self-esteem, social/emotional growth, language skills, motor development and conceptual skill development.
- B. All preschool programs sponsored by this board shall be consistent with the overall philosophy of the school district and aligned with the Core Curriculum Content Standards. They shall be coordinated with other relevant district programs such as special education and Title I and articulated with the K-12 curriculum.
- C. Each preschool classroom shall be assigned at least one certificated teacher with required training or experience with young children, as described in administrative code. Class sizes shall not exceed limits defined in the code.
- D. Proof of immunizations against communicable diseases and examinations shall be in accord with requirements for kindergarten and first grade admission (see policy file code 5111 *Admission*).
- E. Programs shall be designed to include parents/guardians as active participants and provide them with meaningful opportunities to be involved in the educational experiences of their children.
- F. Preschool classes may serve as laboratories for training teachers in cooperative agreements with colleges or universities.
- G. Opportunities may be provided for high school students to participate in laboratory experiences to enhance their understanding of child development and preschool curricula in the interest of future child rearing and for exploration of careers in early childhood education.

*Monitored if the district has an early childhood education program.

EARLY CHILDHOOD EDUCATION/PRESCHOOL

Monitored:

Indicator: 8.1

Other Reasons:

This is an issue of critical concern, if the district sponsors a program of early childhood education, either by State Department of Education fiat or on its own initiative.

Recommendation:

A policy describing the board's approach to early childhood education. Include assurances that the curriculum will be developmentally appropriate to young children, aligned with the Core Curriculum Content Standards and articulated with the regular K-12 curriculum. Age eligibility for early childhood education should coordinate with eligibility for district kindergarten enrollment and should be described in policy file code 5111 *Admission*.

N.J.S.A. 18A:44-4 authorizes school districts that operate nonmandated preschool programs to collect tuition from parents or guardians of children enrolled in the program.

Abbott districts should ensure compliance with all aspects of administrative code. See N.J.A.C. 6A:8-2.1, 2.3, 3.4; N.J.A.C. 6A:9-8.1; N.J.A.C. 6A:9-9.2; N.J.A.C. 6A:10A-2.1 through -2.4; N.J.A.C. 6A:23-5.4.
