

# POCANTICO HILLS CENTRAL SCHOOL

## Health Forms Information Sheet

June 2018

### Grades Pre-K or K, 1, 3, 5, 7 & For All New Students

Dear Parents & Guardians of Pre-K or Kindergarten, Gr. 1, 3, 5, 7 & All New Students:

Please find the following forms in the enclosed packet that you will have to complete or have completed for this school year: **2018 – 2019**

- 1. Physical Examination Certificate:** is to be completed by your child's physician after having a physical examination. By law, all new students and those entering grades Pre-K or K, 1, 3, 5, & 7 must have a physical examination completed by their physician/practitioner. Completed forms, signed and dated by physician anytime within the last 12 months, are acceptable. Your child will be examined by the school physician if we do not have a signed and dated form on file.
- 2. Vaccination Administration Record:** to be completed by your child's physician.
- 3. Medication Administration Form:** to be completed by your child's physician, **and you**, only if your child will be taking any medication while he or she is at school.

No student is to bring in or take any medication in school (including inhalers) without a written note from the parent, a doctor's order (written and signed) and a pharmacy labeled container for the medicine. This includes **ALL medications** such as Tylenol, Motrin, cough syrup, etc. All medications are kept locked in the nurse's office. Since medication can cause side effects, please let me know if your child is on any medication at home.

If your child has asthma, it is a good idea to keep an extra inhaler at the nurse's office. If your child should have an isolated attack, I will then be able to help him/her feel better.

- 4. Child Health History Information Form:** to be completed by you.  
The information on this form helps me to ascertain the current health status of your child. I ask that this form be completed annually.
- 5. Dental Examination Certificate:** to be completed by your child's dentist.  
This law, effective Sept. 2008, requires students enrolling in a public elementary school in New York to present a dental health certificate stating a report of a comprehensive dental examination at the same time a health examination is required.

Please return all forms to the Health Office as soon as they are completed. Make sure to keep a copy of the forms for yourself, as they are often needed for camp or after school programs. If you have any questions, please call or stop by. Thank you for your cooperation.

Sincerely,

*Gay Harmon, RN*

**ALL FORMS ARE AVAILABLE IN THE  
HEALTH OFFICE AND ON THE SCHOOL  
WEBSITE**

6/18

**REQUIRED NYS SCHOOL HEALTH EXAMINATION FORM**

**TO BE COMPLETED IN ENTIRETY BY PRIVATE HEALTH CARE PROVIDER OR SCHOOL MEDICAL DIRECTOR**

**Note:** NYSED requires a physical exam for new entrants and students in Grades Pre-K or K, 1, 3, 5, 7, 9 & 11; annually for interscholastic sports; and working papers as needed; or as required by the Committee on Special Education (CSE) or Committee on Pre-School Special education (CPSE).

# POCANTICO HILLS CENTRAL SCHOOL DISTRICT VACCINATION ADMINISTRATION RECORD

Please return this report to your School Nurse as soon as your child's vaccinations have been given or updated. Obtaining proper vaccinations for your child is required by law and admission to school can be denied without them. District policy requires students provide proof of having had a minimum of one vaccine from each of the series of vaccines below in order to be permitted to enter school.

This form should be completed or updated annually. Please see the list of immunization requirements below:

NAME: \_\_\_\_\_ DOB: \_\_\_\_\_ Gr: \_\_\_\_\_ School year: September: \_\_\_\_\_

**Immunization Requirements:**

As required by NY State Dept. of Education, a clinic or physician's verification of the following is needed for school attendance:

- five (5) or four doses of diphtheria toxoid containing vaccine (DTaP, DT, Td) if the 4<sup>th</sup> dose was received at 4 years of age or older (DTaP)
- four (4) doses of polio vaccine (IPV) or 3 doses if 3<sup>rd</sup> dose received at 4 years of age or older
- two (2) doses of live measles vaccine ♦: 1<sup>st</sup> dose on or after first birthday; 2<sup>nd</sup> dose for kindergarten
- one (1) dose of live mumps vaccine ♦: administered on or after the 1<sup>st</sup> birthday
- one (1) dose of live rubella virus vaccine ♦: administered on or after the 1<sup>st</sup> birthday
- three (3) doses of Hepatitis B vaccine (HBV)
- one (1) dose of varicella (chicken pox) vaccine. 2<sup>nd</sup> dose for kindergarten and grade 6

♦ MMR is preferred vaccine

**In addition, for pre-kindergartners:**

- Haemophilis influenzae type b vaccine (Hib): three (3) doses, or one (1) dose after 15 months of age
- Pneumococcal conjugate (PCV) vaccine for those born on/after 1/1/08: four (4) doses by 15 months of age given at age-appropriate times & intervals

**For students entering 6<sup>th</sup> Grade:**

- One (1) dose of tetanus toxoid, diphtheria and acellular pertussis vaccine (Tdap) for students born after 1/1/94 entering 6<sup>th</sup>, 7<sup>th</sup> or 8<sup>th</sup> grades
- Two (2) doses of Varicella (chickenpox) vaccine

**For students entering 7<sup>th</sup> and 12<sup>th</sup> grades: One dose (1) of Meningococcal vaccine**

Parent/Guardian Signature: \_\_\_\_\_ Date: \_\_\_\_\_

## Dental Health Certificate- Optional

**Parent/Guardian:** New York State law (Chapter 281) permits schools to request an oral health assessment at the same time a health examination is required. Your child may have a dental check-up during this school year to assess his/her fitness to attend school. Please complete Section 1 and take the form to your registered dentist or registered dental hygienist for an assessment. If your child had a dental check-up before he/she started the school, ask your dentist/dental hygienist to fill out Section 2. Return the completed form to the school's medical director or school nurse as soon as possible.

### Section 1. To be completed by Parent or Guardian (Please Print)

Child's Name: Last First Middle

Birth Date: / / Sex:  Male  Female Will this be your child's first oral health assessment?  Yes  No  
Month Day Year

School: Name Grade

Have you noticed any problem in the mouth that interferes with your child's ability to chew, speak or focus on school activities?  Yes  No

I understand that by signing this form I am consenting for the child named above to receive a basic oral health assessment. I understand this assessment is only a limited means of evaluation to assess the student's dental health, and I would need to secure the services of a dentist in order for my child to receive a complete dental examination with x-rays if necessary to maintain good oral health.

I also understand that receiving this preliminary oral health assessment does not establish any new, ongoing or continuing doctor-patient relationship. Further, I will not hold the dentist or those performing this assessment responsible for the consequences or results should I choose NOT to follow the recommendations listed below.

Parent's Signature Date

### Section 2. To be completed by the Dentist/ Dental Hygienist

I. The dental health condition of \_\_\_\_\_ on \_\_\_\_\_ (date of assessment) The date of the assessment needs to be within 12 months of the start of the school year in which it is requested. Check one:

- Yes, The student listed above is in fit condition of dental health to permit his/her attendance at the public schools.
- No, The student listed above is not in fit condition of dental health to permit his/her attendance at the public schools.

NOTE: Not in fit condition of dental health means, that a condition exists that interferes with a student's ability to chew, speak or focus on school activities including pain, swelling or infection related to clinical evidence of open cavities. The designation of not in fit condition of dental health to permit attendance at the public school does not preclude the student from attending school.

Dentist's/ Dental Hygienist's name and address

(please print or stamp)

Dentist's/Dental Hygienist's Signature

--	--

Optional Sections - If you agree to release this information to your child's school, please initial here.

#### II. Oral Health Status (check all that apply).

- Yes  No **Caries Experience/Restoration History** – Has the child ever had a cavity (treated or untreated)? [A filling (temporary/permanent) OR a tooth that is missing because it was extracted as a result of caries OR an open cavity].
- Yes  No **Untreated Caries** – Does this child have an open cavity? [At least ½ mm of tooth structure loss at the enamel surface. Brown to dark-brown coloration of the walls of the lesion. These criteria apply to pits and fissure cavitated lesions as well as those on smooth tooth surfaces. If retained root, assume that the whole tooth was destroyed by caries. Broken or chipped teeth, plus teeth with temporary fillings, are considered sound unless a cavitated lesion is also present].
- Yes  No **Dental Sealants Present**

Other problems (Specify): \_\_\_\_\_

#### II. Treatment Needs (check all that apply)

- No obvious problem. Routine dental care is recommended. Visit your dentist regularly.
- May need dental care. Please schedule an appointment with your dentist as soon as possible for an evaluation.
- Immediate dental care is required. Please schedule an appointment immediately with your dentist to avoid problems.

# 2018-19 School Year New York State Immunization Requirements for School Entrance/Attendance<sup>1</sup>

**NOTES:**

Children in a prekindergarten setting should be age-appropriately immunized. The number of doses depends on the schedule recommended by the Advisory Committee on Immunization Practices (ACIP). For grades pre-k through 10, intervals between doses of vaccine should be in accordance with the ACIP-recommended immunization schedule for persons 0 through 18 years of age. (Exception: intervals between doses of polio vaccine DO NOT need to be reviewed for grades 5, 11 and 12.) Doses received before the minimum age or intervals are not valid and do not count toward the number of doses listed below. Intervals between doses of vaccine DO NOT need to be reviewed for grades 11 and 12. See footnotes for specific information for each vaccine. Children who are enrolling in grade-less classes should meet the immunization requirements of the grades for which they are age equivalent.

**Dose requirements MUST be read with the footnotes of this schedule.**

Vaccines	Prekindergarten (Day Care, Head Start, Nursery or Pre-k)	Kindergarten and Grades 1, 2, 3 and 4	Grade 5	Grades 6, 7, 8, 9 and 10	Grades 11 and 12
<b>Diphtheria and Tetanus toxoid-containing vaccine and Pertussis vaccine (DTaP/DTP/Tdap/Td)<sup>2</sup></b>	<b>4 doses</b>	<b>5 doses or 4 doses</b> if the 4th dose was received at 4 years or older or <b>3 doses</b> if 7 years or older and the series was started at 1 year or older		<b>3 doses</b>	
<b>Tetanus and Diphtheria toxoid-containing vaccine and Pertussis vaccine booster (Tdap)<sup>3</sup></b>		<b>Not applicable</b>			<b>1 dose</b>
<b>Polio vaccine (IPV/OPV)<sup>4</sup></b>	<b>3 doses</b>	<b>4 doses or 3 doses</b> if the 3rd dose was received at 4 years or older	<b>3 doses</b>	<b>4 doses or 3 doses</b> if the 3rd dose was received at 4 years or older	<b>3 doses</b>
<b>Measles, Mumps and Rubella vaccine (MMR)<sup>5</sup></b>	<b>1 dose</b>			<b>2 doses</b>	
<b>Hepatitis B vaccine<sup>6</sup></b>	<b>3 doses</b>			<b>3 doses or 2 doses</b> of adult hepatitis B vaccine (Recombivax) for children who received the doses at least 4 months apart between the ages of 11 through 15 years	
<b>Varicella (Chickenpox) vaccine<sup>7</sup></b>	<b>1 dose</b>	<b>2 doses</b>	<b>1 dose</b>	<b>2 doses</b>	<b>1 dose</b>
<b>Meningococcal conjugate vaccine (MenACWY)<sup>8</sup></b>		<b>Not applicable</b>		<b>Grades 7, 8 and 9: 1 dose</b>	<b>Grade 12: 2 doses or 1 dose</b> if the dose was received at 16 years or older
<b>Haemophilus influenzae type b conjugate vaccine (Hib)<sup>9</sup></b>	<b>1 to 4 doses</b>			<b>Not applicable</b>	
<b>Pneumococcal Conjugate vaccine (PCV)<sup>10</sup></b>	<b>1 to 4 doses</b>			<b>Not applicable</b>	

1. Demonstrated serologic evidence of measles, mumps, rubella, hepatitis B, varicella or polio (for all three serotypes) antibodies is acceptable proof of immunity to these diseases. Diagnosis by a physician, physician assistant or nurse practitioner that a child has had varicella disease is acceptable proof of immunity to varicella.
2. Diphtheria and tetanus toxoids and acellular pertussis (DTaP) vaccine. (Minimum age: 6 weeks)
  - a. Children starting the series on time should receive a 5-dose series of DTaP vaccine at 2 months, 4 months, 6 months and at 15 through 18 months and at 4 years or older. The fourth dose may be received as early as age 12 months, provided at least 6 months have elapsed since the third dose. However, the fourth dose of DTaP need not be repeated if it was administered at least 4 months after the third dose of DTaP. The final dose in the series must be received on or after the fourth birthday.
  - b. If the fourth dose of DTaP was administered at 4 years or older, the fifth (booster) dose of DTaP vaccine is not required.
  - c. For children born before 1/1/2005, only immunity to diphtheria is required and doses of DT and Td can meet this requirement.
  - d. Children 7 years and older who are not fully immunized with the childhood DTaP vaccine series should receive Tdap vaccine as the first dose in the catch-up series; if additional doses are needed, use Td vaccine. If the first dose was received before their first birthday, then 4 doses are required, as long as the final dose was received at 4 years or older. If the first dose was received on or after the first birthday, then 3 doses are required, as long as the final dose was received at 4 years or older. A Tdap vaccine (or incorrectly administered DTaP vaccine) received at 7 years or older will meet the 6th grade Tdap requirement.
3. Tetanus and diphtheria toxoids and acellular pertussis (Tdap) vaccine. (Minimum age: 7 years)
  - a. Students 11 years or older entering grades 6 through 12 are required to have one dose of Tdap. A dose received at 7 years or older will meet this requirement.
  - b. Students who are 10 years old in grade 6 and who have not yet received a Tdap vaccine are in compliance until they turn 11 years old.
4. Inactivated polio vaccine (IPV) or oral polio vaccine (OPV). (Minimum age: 6 weeks)
  - a. Children starting the series on time should receive a series of IPV at 2 months, 4 months and at 6 through 18 months, and at 4 years or older. The final dose in the series must be received on or after the fourth birthday and at least 6 months after the previous dose.
  - b. For students who received their fourth dose before age 4 and prior to August 7, 2010, 4 doses separated by at least 4 weeks is sufficient.
  - c. If the third dose of polio vaccine was received at 4 years or older and at least 6 months after the previous dose, the fourth dose of polio vaccine is not required.
  - d. Intervals between the doses of polio vaccine do not need to be reviewed for grades 5, 11 and 12 in the 2018-19 school year.
  - e. If both OPV and IPV were administered as part of a series, the total number of doses and intervals between doses is the same as that recommended for the U.S. IPV schedule. If only OPV was administered, and all doses were given before age 4 years, 1 dose of IPV should be given at 4 years or older and at least 6 months after the last OPV dose.
5. Measles, mumps, and rubella (MMR) vaccine. (Minimum age: 12 months)
  - a. The first dose of MMR vaccine must have been received on or after the first birthday. The second dose must have been received at least 28 days (4 weeks) after the first dose to be considered valid.
  - b. Measles: One dose is required for prekindergarten. Two doses are required for grades kindergarten through 12.
  - c. Mumps: One dose is required for prekindergarten and grades 11 and 12. Two doses are required for grades kindergarten through 10.
- d. Rubella: At least one dose is required for all grades (prekindergarten through 12).
6. Hepatitis B vaccine
  - a. Dose 1 may be given at birth or anytime thereafter. Dose 2 must be given at least 4 weeks (28 days) after dose 1. Dose 3 must be at least 8 weeks after dose 2 AND at least 16 weeks after dose 1 AND no earlier than age 24 weeks.
  - b. Two doses of adult hepatitis B vaccine (Recombivax) received at least 4 months apart at age 11 through 15 years will meet the requirement.
7. Varicella (chickenpox) vaccine. (Minimum age: 12 months)
  - a. The first dose of varicella vaccine must have been received on or after the first birthday. The second dose must have been received at least 28 days (4 weeks) after the first dose to be considered valid.
  - b. For children younger than 13 years, the recommended minimum interval between doses is 3 months (if the second dose was administered at least 4 weeks after the first dose, it can be accepted as valid); for persons 13 years and older, the minimum interval between doses is 4 weeks.
8. Meningococcal conjugate ACWY vaccine. (Minimum age: 6 weeks)
  - a. One dose of meningococcal conjugate vaccine (Menactra or Menveo) is required for students entering grades 7, 8 and 9.
  - b. For students in grade 12, if the first dose of meningococcal conjugate vaccine was received at 16 years or older, the second (booster) dose is not required.
  - c. The second dose must have been received at 16 years or older. The minimum interval between doses is 8 weeks.
9. Haemophilus influenzae type b (Hib) conjugate vaccine. (Minimum age: 6 weeks)
  - a. Children starting the series on time should receive Hib vaccine at 2 months, 4 months, 6 months and at 12 through 15 months. Children older than 15 months must get caught up according to the ACIP catch-up schedule. The final dose must be received on or after 12 months.
  - b. If 2 doses of vaccine were received before age 12 months, only 3 doses are required with dose 3 at 12 through 15 months and at least 8 weeks after dose 2.
  - c. If dose 1 was received at age 12 through 14 months, only 2 doses are required with dose 2 at least 8 weeks after dose 1.
  - d. If dose 1 was received at 15 months or older, only 1 dose is required.
  - e. Hib vaccine is not required for children 5 years or older.
10. Pneumococcal conjugate vaccine (PCV). (Minimum age: 6 weeks)
  - a. Children starting the series on time should receive PCV vaccine at 2 months, 4 months, 6 months and at 12 through 15 months. Children older than 15 months must get caught up according to the ACIP catch-up schedule. The final dose must be received on or after 12 months.
  - b. Unvaccinated children ages 7 through 11 months of age are required to receive 2 doses, at least 4 weeks apart, followed by a third dose at 12 through 15 months.
  - c. Unvaccinated children ages 12 through 23 months are required to receive 2 doses of vaccine at least 8 weeks apart.
  - d. If one dose of vaccine was received at 24 months or older, no further doses are required.
  - e. For further information, refer to the PCV chart available in the School Survey Instruction Booklet at: [www.health.ny.gov/prevention/immunization/schools](http://www.health.ny.gov/prevention/immunization/schools)
