

FOR the  
2018-19  
SCHOOL YEAR

# Parents:

All kids entering 7<sup>th</sup>, 8<sup>th</sup>, 9<sup>th</sup> and 12<sup>th</sup> grades must have the meningococcal vaccine.

Without it, they can't start school.

## About the Vaccine:

---

- It's not a new vaccine. It's been recommended for a decade.
- Most parents already choose to vaccinate their children.
- The meningococcal vaccine has been required for school entry since Sept. 1, 2016.

## About Meningococcal Disease:

---

- It causes bacterial meningitis and other serious diseases.
- Teens and young adults are at greater risk.
- It comes on quickly and without warning.
- Its symptoms are similar to the flu.
- Every case of this disease can result in death or long-term disability.

Check with your doctor. Even kids who have had a shot before may need a booster to start school.
