October 12, 2017

Dear Parent or Guardian,

As you know, student safety is our top priority. Recently, we have learned of various methods students across the country are using to “vape”. Besides smoking E-Cigarettes, students are engaging in activities which include “juuling”. Juul is a new vaping device which resembles a USB drive. It enables the user to inhale vapor containing nicotine. Images of the many devices used to “vape” and “Juul” can be found on the Internet.

Please be certain to speak with your child about the dangers of nicotine use. If you would like more information about vaping or how to better support your child at home with issues surrounding at-risk behaviors, please contact Mrs. Dornzella Milligan, Student Assistance Counselor at (845)353-7100 or dmilligan@nyackschools.org.

Respectfully,

Nicole Saieva
