Take attendance seriously

Everyone at school is working to help your child achieve. But only *you* can make sure she gets to school every day. Discuss the importance of attendance. Explain to your child that:

- **Missing school** means missing learning and time with friends. Your child will also have to work harder to catch up.
- **The only time** she can miss school is when she's sick or there's an emergency.

Together we will build a strong foundation for all students.
