Mrs. Karen Moody

Counselor

Ms. Sarah Cook

Nurse

Ms. Jeanne Morey

The Yorktown Community Schools Board of Trustees voted last spring to begin a **construction project** at PVE. We are excited to let you know that construction will be underway at PVE when we return from fall break. As part of the construction project, we will be adding a secure office area, clinic, and cafeteria/kitchen on the east side of the school. We will also be adding six classrooms and repurposing the current office area. The addition of these classrooms will alleviate the need for the modular classrooms that are currently outside.

Our goal during this construction period is to maintain a safe learning environment for our students. In preparation for the construction, I want to provide you with the following information:

- The main entrance doors during construction will be the north doors. (doors facing River Road) The doorbell/camera system will be moved to these doors. Once you are allowed to enter the school, a door monitor, stationed inside the north doors, will ask you to sign in and will direct you to the office.
- Traffic flow into the parking lot will continue as it is currently. Parents picking up and dropping students off will be asked to pull as far south on the sidewalk area. PVE faculty and staff will supervise as students walk to the north doors. (new main entrance)
- Afternoon car pick up may take a little more time due to having one entrance for our entire student body. Please be patient with us as we ensure the safety of our students.
- Major demolition will take place during Christmas and Spring break while students are out of the building.
- The parking area will be limited during construction.
- Please allow a little additional time to your schedule if you need to pick your child up for an appointment, etc. during the school day.
- The north doors will also be used for after school latchkey access.

We ask that you be patient with us during this construction period. We look forward to the changes that will be made to enhance our building. The projected timeline for our project is from October, 2018 to June, 2019. I will continue to keep you updated as the construction progresses throughout the school year and changes occur.

Sincerely,

Kathy Ray Principal

Home of the Tigers!
